319849	\$15.50

MATTRESSES

MATTRESSES

RESTFUL SLEEP FOR EVERY BUDGET!

For more than 35 years, PCI has manufactured a complete line of mattresses and related bedding products. Each item has been constructed for the special needs of our customers to meet durability, hygiene, and safety specifications.

What makes a good mattress?

Many of our mattresses are made with an innerspring—a series of steel spirals that supplies support to the body. Both the number and the gauge of the spiral determine the mattress' ability to evenly distribute weight.

Additional comfort comes from the foams and fibers used in upholstering above the innerspring. These materials ease the pressure points along the body. For even greater economy, we make a number of mattresses without innerspring.

All PCI mattresses meet both federal and state flammability standards. Copies of complete written mattress specifications (i.e., flammability levels, construction, bill of materials, fluid resistance, etc.) are available upon request.

All mattresses are completely configurable in size (listed below), coverings (listed below), thickness, pillow options, binding and ventilation, unless otherwise noted.

If you are interested in ordering a configurable mattress, please use Material Number **339159** when ordering. If you don't see configurations to match your requirements, please contact our Customer Service Department using Material Number **335239** for a custom mattress price quote, or to place an order.

Mattresses are available in the following lengths and widths:

Length: 72" • 73" • 74" • 75" • 76" • 77" • 78"
Width: 27" • 28" • 29" • 30" • 31" • 32" • 33" • 34" • 35" • 36"

Mattresses are available in the following coverings:

MATTRESSES MATTRESSES

INNERSPRING MATTRESS— STANDARD

This 7" thick mattress has an innerspring construction made with Bonnel-style springs, 312 12-gauge coils with 6-gauge border wire. Cushioning each side of the springs are two 3/8" insulator pads with a 1" flame retardant cotton pad sandwiched between. These mattresses do not come with a built-in pillow, but are available with or without binding or ventilation.

INNERSPRING MATTRESS— FOAM TOPPER

These mattresses are the same as the 7" thick standard innerspring mattresses constructed with the Bonnel-style springs, 312 13-gauge coils and a 6-gauge border. However, these mattresses feature cushioning on both sides of 3/8" insulator pads around a 1" flame retardant cotton pad and an additional layer of cushioning on each side made of 1/2" CR Safeguard flame resistant foam for extended life. These mattresses do not come with a built-in pillow, but are available with or without binding or ventilation.

MATTRESSES MATTRESSES

DENSIFIED POLYESTER MATTRESS— 8-OUNCE

This 8-ounce densified polyester mattress is 4" thick and is available with or without a built-in pillow. The 8-ounce densified polyester mattress does not feature binding or ventilation,

DENSIFIED POLYESTER MATTRESS— 12-OUNCE

This 12-ounce densified polyester mattress is 4½" thick and is available with or without a built-in pillow. These mattresses do not feature binding or ventilation.

MATTRESSES

MATTRESSES

COTTON FELT MATTRESSES

These are our most economical mattresses. Available with 5½" thickness, they are filled entirely with cotton felt and treated with boric acid to be fire retardant. They do not come with a built-in pillow, binding or ventilation.

NEOPRENE FOAM MATTRESSES

With its 60-month service life, this simply-constructed all-foam mattress offers a low cost, high value alternative for your bedding needs. Made of highly flame-resistant, low-smoke foam, it is specially formulated to meet the high-risk requirements of correctional and mental health facilities. Searching for contraband is made easier due to its smooth surface and box-like shape. Available with 3", 4" or 6" thickness. These mattresses do not come with a built-in pillow, binding or ventilation.

SIESTA FIRE RETARDANT FOAM MATTRESSES

Consisting of layered foam that is 5" thick, this excellent collegiate mattress is light enough to be easily moved and stored. Use both sides for extended service and comfort. The inner core is 2 lbs. per cubic foot minimum density FR polyurethane as per California Technical Bulletin No. 117. Firmness of Polyurethane is 40+/- 4 lbs. Securely laminated to the polyurethane with neoprene adhesive is a minimum low smoke polychloroprene compound cushioning which complies with all of the physical and flammability properties listed. This lamination completely encapsulates the polyurethane on top, bottoms and sides. These mattresses do not have a built-in pillow but are available with or without binding or ventilation.

MATTRESSES MATTRESSES

BEIGE ANTIBACTERIAL COVERED MATTRESSES

The Beige Antibacterial Covered Mattresses are not configurable. Mattresses are available with either a densified polyester or foam core, covered by a Beige antibacterial, hypoallergenic, antifungal vinyl material.
