## Hanging Pedestal Files

Our metal Series XXI KD hanging file system. Hanging pedestal files attach to work surfaces and are specific to office furniture applications where the file cabinets never touch the floor. Cabinet depths are not actual size—they are listed according to the minimum work surface depth necessary to accommodate the cabinet. Drawers are offered in 3", 6", 12", and 15" heights, and will accommodate items ranging from desk supplies to computer printout files.

These files are constructed of durable 18- to 22-gauge cold-rolled steel. Heavy-duty ball-bearing suspensions permit smooth, effortless drawer operation. All hanging files include locks and two keys. When multiple cabinets are purchased, please specify if they are to be "keyed alike." All cabinets meet ANSI/BIFMA standards: X5.2-1989, Sections 4, 5, 6, 7, 8, 9, 13, and 14. Also available in black, burgundy, or dark gray.

Ebony**

**Duraweave X  
Forest Green**

**Duraweave X  
Maroon**

**Duraweave X  
Navy**

**Boltaflex Colorguard Vinyl  
Black**

## Knee tilt mechanisms vs. Synchronous tilt mechanisms

With a synchronous tilt, the user is able to adjust the seat and back independently of each other. The knee-tilt option allows the user's feet to stay firmly on the floor while inclining the seat to different angles of support. Synchronous tilt allows the user to “lock-out” the seat and back to an infinite number of positions for maximum comfort.

# Ergonomic Task Chairs from PCI!

# Breathe

**Breathe** is an economic task chair that provides state-of-the-art design, comfort, dependability and style. Breathe will be the correct fit for any end user or environment.

Available with black frame upholstered with black mesh fabric and dual-wheel carpet casters.

PCI Product #	Description
005-0320-0994	Breathe chair; pedestal base; height adjustable arms; includes headrest.
005-0320-0993	Breathe chair; pedestal base; height adjustable arms (no headrest).

# Breathe Jr.

The mid-back **Breathe Jr.** brings contemporary style to an even wider audience. In addition to its clean lines, Breathe Jr. features a synchronous knee-tilt mechanism that free floats or locks in the upright position.

Employees in the modern office spend a lot of time at their desks, making comfort and productivity key concerns. Now you have a seating option that offers all the style and grace of fine office seating for every budget!

PCI Product #	Description
005-0320-1019	Breathe Jr. chair; pedestal base; height adjustable arms.
005-0320-1018	Breathe Jr. chair; pedestal base (no arms).

## Sterling 2 Executive High Back Chair

This seating offers a stylish, competitively-priced solution for the manager's workspace.

Comfort and contemporary design come together to create the **Sterling 2 Executive High-Back Chair** and features multiple seat position adjustments and the ergonomic advantages you would expect in executive-level seating.

Advanced mechanical adjustments allow the user to set seat pitch, back height and depth, and arm height and width adjustment for the ultimate in support and comfort. This chair is equipped with a Knee-Tilt mechanism that allows the chair to move and fit the natural body mechanics of the user, delivering support through the user's full range of motion.

PCI Product #	Description
005-0320-0179	Sterling 2 High Back Managerial Chair with Knee-tilt; adjustable task arms.

## **Sterling 2 Low-Back Managerial Chair**

The gently sloping curves of the **Sterling 2 Low-Back Managerial chair** follow the contours of the human body, offering durable, steady support.

The three-inch, medium density foam seat pad delivers a soft, plush feel for managers and supervisors and features a reinforced nylon molded base construction, polypropylene back and urethane loop arms that stand up to bumps and scratches that occur in an active office. Seat height and arm adjustments allow the user to change positions throughout the day to maintain comfort and enhance productivity. This chair offers the user the ability to maintain an ergonomically sound working posture with a synchronous positional lock mechanism and back height adjustment.

PCI Product #	Description
005-0320-0267	Sterling 2 Low Back Managerial Chair with Synchro-tilt; adjustable loop arms.

## Sterling 2 Guest Chair

**Sterling 2 Guest Chairs** with a sled base are the perfect complement to Sterling 2 managerial seating. Ideal

seating option for conference rooms, reception areas, cafeterias and a wide variety of meeting and presentation facilities.

Designed with the same back style as the Sterling 2 Low-Back Managerial chair, Sterling 2 Sled Base Chairs offer durable, comfortable seats that complement any office decor.

Backrests provide a pre-positioned lumbar support to provide continuous back support to a user. The tubular construction of the base delivers strong support with a durable finish. The chairs are available with or without fixed task or loop arms.

PCI Product #	Description
005-0320-0015	Sterling 2 Guest Chair; sled base and fixed loop arms.

## Sterling 2 Stool

This seating provides the adjustability and ergonomic support needed to help employees maintain peak productivity. And, when you need to get higher up in the office the **Sterling 2 Stool** is the answer.

The stool offers the same seat and back as the managerial chairs. Molded foam assures you many hours of comfort at any height and a 26" wide base adds to stability making the Sterling 2 Stool the seating you need when chair height is necessary-- perfect for drafting/architectural applications.

PCI Product #	Description
005-0320-0043	Sterling 2 Stool; carpet caster base; chrome foot ring; adjustable task arms.

**Pilot**

Big and tall users appreciate **Pilot's** expansive 24" wide seat featuring a waterfall edge to relieve pressure on the thighs and a high back that provides gentle support to the entire spine.

The seat and back prevent fatigue with 3.75" of plush, resilient foam. Designed for round-the-clock use, Pilot is comfortable every time you use it and a heavy duty frame including an oversized steel J-bar and reinforced mechanism insure it.

PCI Product #	Description
005-0320-1010	Pilot 24/7 HD chair; pedestal base; fully adjustable task arms.

# Outfit Conference

This conference room-style chair fits the casual user with uncomplicated comfort. This full-comfort chair features three simple controls: **Tilt-Lock** to lock the chair back upright or allow it to float; **Seat Height Adjustment** to raise or lower the seat and a **Tilt-Tension Adjustment** to ease the seat back tilt or tighten it.

PCI Product #	Description
005-0320-1022	Outfit Conference chair; pedestal base; loop arms.

## Snap High Back Chair

**Snap** offers value, comfort and reliability. So much more than your average task chair: molded foam construction, lumbar pillows for back

support, sculpted seat, and the perfect combination of soft seat and firm back, Snap chairs are the most comfortable chairs in their price range.

Beyond its construction, Snap seating delivers adjustable back height, seat height, arm height, and on some models, seat depth and seat and back angle.

It's more than you expect!

PCI Product #	Description
005-0320-1005	Snap High back task chair; pedestal base (no arms).
005-0320-1024	Snap High back task chair; adjustable loop arms; black base w/ carpet casters.

# Snap Stool

The **Snap Stool** mechanisms are made of heavy-gauge steel plates, securely attached with six bolts. Five-star bases are fiberglass reinforced nylon and all hardware is treated with Nylock patches to prevent loosening over time. In other words... Snap seating is built to last.

Perfect seating for a computer lab, control area or anywhere an elevated seat is required, the stool features a 26" base foot ring. The Snap Stool is everything you need in a hard-working task chair, and more!

PCI Product #	Description
005-0320-1025	Snap High back stool; pedestal base (no arms); black plastic foot ring; hard floor casters

## Sapphire Task Chair

**Sapphire** offers a blend of comfort, appearance and function necessary for any workplace environment. The contoured seat and back provide ergonomic comfort and with Sapphire's wide waterfall seat and back support that wraps around users, this chair is a great fit for any individual's task.

Sapphire is equipped with a swivel seat, seat-height adjustment and a back-depth adjustment.

PCI Product #	Description
005-0320-0416	Sapphire Task chair; pedestal base (no arms).
005-0320-0400	Sapphire Task chair; pedestal base; cantilever arms.

## Seating

**Even our most basic chairs are designed for maximum ergonomic comfort.**

Our chairs are ergonomically designed for heavy commercial use—some for 24-hour multiple shift usage. Durability and ease of maintenance have been built into every chair from simple stacking seating to the most sophisticated, highly adjustable managerial chair.

We are proud to present the following lines of individual and multiple seating.

### Wood Seating

This furniture is both smart and sturdy. Made of solid select or better oak hardwood, many of these items feature seats and backs that can be covered in a wide variety of vinyl or cloth fabrics.

#### Trestle Benches

Our solid oak bench. Specify stain and finish.

SIZE	PRODUCT NUMBER
14"D x 60"L x 18"H	005-0310-0001
14"D x 72"L x 18"H	005-0310-0002
14"D x 84"L x 18"H	005-0310-0003

#### Side Chairs — Style A

Featuring solid oak construction, an armless, contoured seat, and a slatted back. Chair is 16¾"D x 15¼"L x 34"H, and 15¼"H at seat. Please specify stain and finish.

PRODUCT NUMBER
005-0310-0006

#### Side Chairs — Style B

Similar to our Style A side chair with the addition of an upholstered seat. Chair is 16¾"D x 15¼"L x 34"H, and 18"H at seat. Specify fabric selection, stain, and finish.

PRODUCT NUMBER
005-0310-0008

#### Courthouse Bench Settees

Featuring solid oak slatted construction. Settee is 23½"D x 72"L x 37"H. Specify stain and finish.

### Sterling Series

Sterling chairs offer ergonomic features to optimize office productivity. With a synchronous tilt, the user is able to adjust the seat and the back independently of each other. The knee-tilt option allows the user's feet to stay firmly on the floor while inclining the seat to different angles of support. Synchronous tilt allows the user to "lock-out" the seat and back to an infinite number of positions for maximum comfort. The Operational Chair is designed with an adjustable backrest.

The backrest height is adjustable over a 2" range and is locked in place with the adjustment cam, which can be easily moved while in a sitting position.

The adjustable seat height allows the user to quickly select the optimum level of comfort. Seat height is raised or lowered by a pneumatic cylinder. When equipped with adjustable arms, the comfortable arm pad can be moved horizontally and vertically, giving the chair maximum flexibility.

### Guardian Chair

This 24/7 approved chair has a heavy duty gaslift that adds strength and durability. Other features include a dual torsion heavy duty knee pivot synchro tilt control to enable feet to stay on the ground when leaning back; 2:1 ratio; relaxed position; open torso/leg angle that promotes good ergonomics. The contoured waterfall seat comes with an extra thick multidensity contoured cushion to provide excellent comfort, support and durability. Seat is oversized to accommodate full personal gear.

PRODUCT NUMBER
005-0320-1009

## Comfort Line Chairs

Designed for extended use, the Comfort Line functions well in today's offices with other ergonomically-adjustable furniture. Comfort Line chairs provide excellent lower lumbar support as well as overall body support and comfort from their extra thick foam. This foam is extra-long-life fire retardant that meets CA 117, MUSS 302 Automotive, and meets or exceeds ANSI/BIFMA test standards.

The High Back Executive and Manager's Chairs are designed

with a posture support system featuring smooth adjustable chair tilting plus gas cylinder height adjustment to promote comfortable seating. Features also include solid natural hardwood oak or plastic arms. The base, available in black only, has five anti-tip legs with dual-wheel casters for safety and quiet mobility. The guest side chairs are available in a sled base design. Specify fabric selection.

### Integra Chairs—100 Series/Custody Seating

Designed expressly for institutional use, these one-piece molded chairs are virtually indestructible. Used in more than 600 correctional facilities nationwide, they are stackable and easy to clean.

Integra chairs are made of high-impact polyethylene, with UV light stabilizers to prevent fading and anti-static additive to reduce dust attraction. They contain no wood or metal components and pass California T.B. 133 fire tests, ASTM F1561-94 plastic chair performance standards, and FIRA Grade 5 Severe Contract Use. The Arm Chair model has interlocking arms and is gangable without requiring additional parts. Other colors are available.

## Heavy Duty Seating

Designed expressly for institutional use, this one-piece rotationally-molded seating is virtually indestructible and tamper-resistant. These chairs feature a comfortable ergonomic design and are virtually maintenance free.

Integra chairs are made of high-impact polyethylene, with UV light stabilizers to prevent fading, contain no dangerous wood or metal components, and pass California T.B. 133 fire tests. These chairs are gangable side-to-side and back-to-back with Torx® tamper-resistant screws and may be used free-standing, bolted-down, or weighted on-site with sand.

Spin welded bottoms are standard for the Custody Lounge and Ultra-Max Arm Chairs. These models may be special ordered with a bottom access plate for sand ballasting on-site. The Mega Max Sectional Lounge offers sand ballasting standard and can be special ordered with a spin-weld bottom. Other colors are available.

## Integra Maximum Lounge Seating

From a single bench to auditorium seating, this durable and versatile line can be used for dayrooms, visiting areas, lounges, and exercise and multi-purpose areas. This seating can be used indoors and out and can be mounted to the floor or wall.

These units are made of high-impact, UV-stabilized polypropylene ribs on a powder-coated steel frame. They feature tough construction, graffiti-resistance, and tamper-resistant assembly hardware. Because of its durability, easy maintenance, and low initial cost, our Ribbed Lounge Seating is a cost-effective seating choice.

For floor or wall connecting hardware including table assemblies, see “Spacer and Corner Table Assemblies” in our Table section. Please specify frame (White, Almond, Teal, Blue, Plum, Evergreen, Burgundy, Light Gray, Gray, Charcoal, Black, and Stainless Steel) and rib (Light Gray, Charcoal, Blue, and Evergreen) colors.

## Rack Systems

PCI offers heavy duty shelving and rack systems for all your storage needs. The shelving is made of 18-gauge steel and the storage rack systems are made entirely of 11-gauge steel. Strap-type sway braces, reinforcement bars, extra shelves, bases, kick plates, label holders, dividers, doors, and other accessories are available for site-specific customization.

Please contact your sales and marketing representative for more information.

### Pallet Racks

Pallet rack systems are constructed of two basic components—upright support frames and load beams. Pallet racks are available in standard heights of 8' and 10' with depths of 42", 44", and 48". Other dimensions are available upon request as special order items. Beams have 1½"-recessed steps to accept steel decking or wood planking. Beams feature 1½" centers to provide adjustable vertical clearance. The beams have three lug fittings at each end that drop into posts for a rigid, free-standing structure. Each heavy-duty storage pallet rack is assembled with two upright support frames, four or more load beams, and optional pallet supports for the shelving deck panel. These heavy-duty racks are ideal for palletized, carpet, drum, and reel storage. With the optional steel decking panels, these units can be used as wide span shelving for hand-loading bulk items such as large cartons, crates, plywood sheets, and other lumber.
