<b>Date of Issue:</b>  <b>October 4, 2021</b>	<b>Authority:</b>  <b>Signature on File George M. Little</b>	<b>Effective Date:</b>  <b>PUBLIC October 11, 2021</b>

## I. AUTHORITY

The Authority of the Secretary of Corrections to direct the operation of the Department of Corrections is established by Sections 201, 206, 506, and 901-B of the Administrative Code of 1929, 71 P.S. §§61, 66, 186, and 310-1, Act of April 9, 1929, P.L. 177, No. 175, as amended.

## II. PURPOSE

The purpose of this policy is to explain supervision planning and assistance provided to reentrants during supervision.

## III. APPLICABILITY

This policy is applicable to all Department staff.

## IV. DEFINITIONS

All definitions are located in Policy **12.4.01.01, Glossary**.

## V. POLICY

The Department will work with the community in developing partnerships with a variety of stakeholders to prevent victimization, provide conflict resolution, and promote public

safety.<sup>1</sup> A current inventory of community agencies that provide financial and other assistance to reentrants will be maintained and readily available.<sup>2</sup>

The Department will devote resources to assist reentrants in finding suitable employment<sup>3</sup> and/or support the enrollment in educational programs and vocational training.<sup>4</sup>

It shall be the policy of the Department that evidence-based practices<sup>5</sup> will be employed when jointly developing case plans with every reentrant supervised by the Department. The case plan shall be based on the Department approved assessment tool and address imposed supervision conditions, goals, and reentrant needs. The case plan will be continually reviewed and adjusted according to the reentrant's criminogenic needs and risk to recidivate. The Department also recognizes that reentrants' needs do not end at their termination of supervision, and resources should remain available when possible.<sup>6</sup>

## VI. PROCEDURES

### A. Reentrant Supervision Planning

The development of a reentrant case plan is a joint effort between the agent and the reentrant using the information derived from the assessment tool. The plan identifies jointly developed goals for the reentrant to accomplish within a specific period of time. For additional information concerning the processing of the **DC-P 22P, Reentrant Case Plan**, refer to Policy **12.4.01.05, Assessment, Case Plan, Levels of Supervision and Contacts**.

### B. Community Collaborative Reentry Efforts

The Department is committed to long-term strategies that reduce recidivism. Directly addressing reentrants' criminogenic needs and the operation of a variety of evidence-based reentry programs have the intent of helping reentrants successfully reintegrate into the community and, ultimately, promote increased public safety.<sup>7</sup>

Partnerships shall be explored with a full range of stakeholders in both the public and private sectors, including, but not limited to: criminal justice agencies and entities (law enforcement, prosecutor offices, defense bar, judiciary, corrections), human service providers, victims' organizations, reentrant advocacy groups, service organizations, all levels of government, business, education, health care, faith community, organized labor, employment and training agencies, and reentrants' families.<sup>8</sup>

Supervision staff shall endeavor to establish, support, and maintain a cooperative working relationship with public and private service agencies to address the needs of the reentrant. Methods to achieve this include:

1. District Resource PA-211

The Department utilizes the statewide PA 211 directory for all available resources in each county. This information is accessible via the internet at PA211.org and staffed by a 24 hour helpline by dialing 2-1-1.

The Community Reentry Parole Agents (CRPA) are responsible for networking with local community resources available in their district to assist supervision staff with meeting the needs of reentrants.<sup>9</sup>

2. Referrals for Treatment/Services

Supervision staff shall assist reentrants by referring them to community treatment/service providers that will meet their needs. When making a referral, the agent must be very specific about the referral, giving the reentrant information about the nature of the treatment/services offered by the agency, and any costs for these services or third-party coverage. Supervision staff shall also provide the reentrant with the exact address and directions to locate the provider and the hours of operation. Referral information, start dates, progress, and completion dates are maintained in the electronic reentrant record (ERR).

3. Bureau of Community Corrections (BCC) Contracted Reentry Services<sup>10</sup>

The Department developed these reentry services to provide treatment for reentrants who could not otherwise receive these services through community resources or third-party coverage.

- a. BCC Reentry Services Referral form

A BCC Reentry Services Referral form (refer to Department policy **7.3.1, “Reentry and Transition”**) is completed by supervision staff and emailed to **CR, BCC Services Referral** for review and funding approval. The funding response will be returned to the requesting supervision staff by close of the following business day. If an immediate placement is needed, supervision staff may call the BCC Referral Unit Region 1 at (717) 512-7897 or Regions 2 & 3 at (717) 512-2551, during regular business hours, to provide the required information to the BCC Referral Unit staff. The BCC Referral Unit will complete the referral request form, identify the provider and effective date of services, and forward the approved referral request form to the appropriate entities (i.e.: requesting supervision staff, service provider, contract facility coordinator, etc.).

<sup>10</sup> 4-ACRS-5A-11

b. Issuing **DC-P 348I, Parole Instruction**

Supervision staff will issue the reentrant a **DC-P 348I** directing the reentrant to report to the service location by a specific date. The service provider will notify all interested parties by close of business when the reentrant reports or fails to report by the deadline as indicated on the BCC Reentry Services Referral form. All continuing communications regarding change in reentrant status such as non-compliance, arrest, address change, etc. should be communicated through email by sending a reply to all from BCC's original approval email notification.

c. Community Corrections Center (CCC)/Community Contract Facility (CCF) Residents

Residents of a CCC/CCF may be eligible for these services (except for day reporting) unless the service is offered at the CCC/CCF location. Supervision staff will send an email to the CCC/CCF counselor advising that an appointment has been scheduled. Supervision staff will also provide the reentrant with an extra copy of the **DC-P 348I** to give to center staff. It is the reentrant's responsibility to request time to attend scheduled appointments.

d. Special Probation/Parole Cases

Special probationers and special parolees are eligible for certain contracted reentry programs. If attendance is being sought, supervision staff shall request the Court issue an order directing the special probationer/special parolee to the contracted reentry program. If the Court determines that the special probationer/special parolee is not an identifiable threat to public safety and does not direct said program, supervision staff will review the case circumstances with their chain of command. Staff shall refer to Policy **12.4.01.13, Probation and Parole Conditions** for further guidance.
