SUBJECT: Extension of Cohort Size

On December 23, 2020, I notified you that we were extending 8 man cohort sizes until January 4, 2021. Unfortunately, cases in both the community and the institutions remain high, and the safest course of action is to maintain our current posture of 8 man cohorts until January 19, 2021.

As stated previously, all additional services outlined in our December 10th memo will continue unchanged.

As always, I appreciate everything you're doing to assist us with this pandemic. If you have any questions, please contact your unit team.
