

**TO:** ALL CONCERNED

**FROM:**   
K. Brittain  
SCI Frackville Superintendent

**DATE:** March 31, 2021

**RE:** Adjusted Demobilization plan for SCI-Frackville (Level 2)

Monday, April 5, 2021, SCI Frackville will adjust the Level 2 cohort sizes. This memo is a guide of the changes that will occur at SCI Frackville on Monday April 5<sup>th</sup>.

- **The cohort sizes on A, B and C blocks will increase from 20 inmates to 28 inmates. There are four cohorts on each wing (tier 1 – 4).** This increase in cohort size will allow us to continue the two (2) periods of out of cell time each day. The morning period will be adjusted to One hour and thirty minutes; the afternoon/evening period will be 40 minutes.
- Access to showers, phones, and kiosks is permitted during the two periods the cohorts are permitted out of cell. Sanitization will continue following each period. Phone restriction has been added to a 30 minute limit of calls per each rec period. Phone lists will be used.
- Access to the main yard areas and gym will resume. A new schedule will be provided.
- Inmates returning from any ATA or medical trip will still be quarantined for 14 days.
- Religious Materials, Treatment Services, and Education Materials will continue to be delivered to the housing units. Custodial Maintenance and Building Trades are operating by cohort.
- Law library/Leisure library will be opened for inmates by cohort. A new schedule will be provided.
- Routine visits are still suspended but video visitation will continue on the blocks.
- Religious services will still be broadcast over the inmate channel.
- Proper masks wearing is required for all staff and all inmates while out of cell.
- Meals will be delivered to the Blocks.
- Barber services will be conducted in the Barbershop by block/cohort for A, B and C blocks.
- Commissary will be called down to the Commissary lobby by cohort (maximum of 14 inmates at a time).
- Medication lines will continue to be delivered to the housing units. Sick call and chronic care clinics will be conducted in treatment by cohort.
