DEPARTMENT OF CORRECTIONS

TO: ALL INMATES

DATE: April 5, 2021

**FROM: 
Michael Zaken
Superintendent**

SUBJECT: COVID Vaccine

Today the institution has received the Johnson and Johnson (Jansen) COVID Vaccine for the staff and inmate population. This is a one-shot vaccine. We will begin administering the vaccine by housing unit beginning this Wednesday, April 7, 2021 and continue through all units over the next week until all inmates at SCI-Greene have the opportunity to accept the vaccine. All inmates will be required to come out for the vaccine and either accept or sign a refusal. A consent form will be completed for all who accept the vaccine. Medical Staff will be on the units to administer the shot and answer any questions you may have. An information sheet about the J & J vaccine will be available and provided to all at the medical stations set up on the Housing Units. Twenty-five dollars will be credited to your inmate account for taking the vaccine.

This is the beginning of a return to normal and the commencement of us beating the Coronavirus. I encourage everyone to take advantage of receiving the vaccine for the safety of yourself and all around you. A town hall event will begin airing today, which videoed the SCI-Greene Administrative Staff and other Management staff receiving the vaccine early this afternoon.
