

Fireside Chat 5-21-21

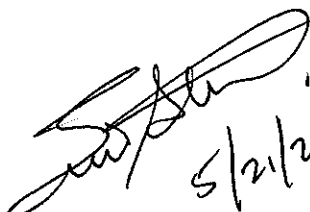

Just one additional topic to add from yesterday's Fireside Chat.

We are required to meet with every inmate who has not received the COVID-19 vaccine. Therefore, beginning next week, Staff will be coming around to the housing units to speak individually to those inmates who have not received the vaccine. These Staff members will include a member from the Medical Department who can answer any questions or concerns you may have. It is our hopes this process will allow for you to make an informed decision on whether or not you wish to receive the vaccine. The \$25 incentive remains in effect. If you receive the vaccine, your vaccination verification card will be held on file for you with Inmate Accounts.

If you decide to get the vaccine, it is our intention to begin administering the vaccine the beginning of June.

If you decide that you still do not wish to receive the vaccine when Staff speak to you next week but then change your mind at a later date, please send a request slip to the Medical Department and inform a Staff member on your housing unit.

Thank you.
