## **AUDIT FINDINGS**

### **NARRATIVE**

A Prison Rape Elimination Act Audit of the State Correctional Institution at Forest was conducted from April 18-21, 2016. The purpose of the audit was to determine compliance with the Prison Rape Elimination Act standards which became effective August 20, 2012.

An entrance meeting was held the morning of the onsite audit with the following persons: Superintendent Michael Overmyer, Deputy Superintendent of Facility Management Derek Oberlander, Deputy Superintendent of Centralized Services John Sawtelle, Major of Unit Management Paul Ennis, Classification and Program Manager/PREA Compliance Manager Erin Ireland, Director of Standards, Audits, Accreditation, Carol Ann Mattis.

The auditor wishes to extend its appreciation to Superintendent Overmyer and his staff for the professionalism they demonstrated throughout the audit and their willingness to comply with all requests and recommendations made by the auditor.

The auditor would also like to recognize Director Carol Mattis and PREA Compliance Manager Erin Ireland for their hard work and dedication to ensure the facility is compliant with all PREA standards. Director Mattis is overseeing the agency's PREA compliance, until the agency's recently vacated PREA Coordinator position is filled.

The auditor provided the facility with a Notification of Audit on February 25, 2016. The notification contained information on the upcoming audit and stated that any inmate with pertinent information should send this information to the auditor at least 10 days prior to the onsite audit date of April 18, 2016. The auditor instructed the facility to post this notification in all housing units and throughout the facility. The auditor was advised by the facility that the notification was posted six weeks prior to the onsite audit.

Approximately six weeks prior to the onsite audit, the Agency provided the auditor with access to their Agency data room used for audit purposes. This data room is called AARMS. The agency uploaded policies as well as all other pertinent information into standard specific folders. During the next six to eight weeks, the auditor reviewed the questionnaire and all relevant documentation.

After the entrance meeting, the auditor was given a tour of all areas of the facility, including; all general population housing units, Restrictive Housing Unit, Control Center, Processing Strip Search Area, Parole Office, Medical Services and Infirmary, Inmate Receiving, Officer Dining Room, Inmate Dining Room, Culinary Area, Maintenance, Program Services, Library, Chapel, Activities Area, Barber Shop, Commissary, Warehouse, Mailroom, Auto Shop, Utility Plant, Administrative Building, Visitation, and Sally Port.

A total of 28 staff were interviewed with at least one staff member interviewed from each interview category, with the exception of the interviews related to educational staff who supervise youthful inmates, line staff who supervise youthful inmates, and non-medical staff involved in cross-gender searches (these interview types were not applicable to this facility).

Staff interviews were conducted with staff from all three shifts.

A total of 19 inmates were interviewed with at least one inmate interviewed from each interview category, with the exception of the interviews related to youthful inmates and inmates placed in segregated housing for risk of sexual victimization (these interview types were not applicable to this facility).

Telephone interviews were conducted with the Agency Head, Agency Contract Administrator, and the SAFE/SANE staff.

The count on the first day of the audit was 2,065. The count on the final day of the audit was 2,080.

Throughout the pre-audit and onsite audit, open and positive communication was established between the auditor and facility staff. During this time, the auditor discussed his concerns with PREA Compliance Manager Erin Ireland. All concerns were addressed to the auditor's satisfaction prior to the completion of the Final Report.

When the audit was completed, the auditor conducted an exit briefing on April 20, 2016. The auditor gave an overview of the audit and thanked the staff for all their hard work and commitment to the Prison Rape Elimination Act.

## DESCRIPTION OF FACILITY CHARACTERISTICS

The PA Department of Corrections' search for a new correctional facility location caught the attention of Forest County Commissioners in 1998. At that time, the area was in need of economic improvement due to the shut-down of a major employer. The Commissioners decided a state-run correctional facility would be a boost to the area and began their quest to bring a DOC facility to Marienville. Seven years, and numerous community meetings later, SCI Forest became a reality overcoming obstacles including project delays and a change in the facility design. SCI Forest is a "prototypical" design similar to other state facilities in Pennsylvania but with major security design upgrades including a "wagon wheel" design of the housing units. The first inmates arrived on October 28, 2004.

The compound rests on 202 total acres with 56.9 acres enclosed. The compound is comprised of 28 buildings including 11 housing units, three inmate dining halls, infirmary, education and religious complex, warehouse, utility plant and administration building. In addition there are two large recreational yards and individual recreation areas for each housing unit.

The facility is a level 4 facility with custody levels 2-5.

Housing includes one Custody Level 2 unit which includes dormitory-style housing, eight general population housing units and two segregation units. Housing unit J and K hold 96 administrative segregation inmates in each housing unit.

Description of perimeter controls, fence design, mobile patrols, towers, sally ports/entrances, lighting, cameras, alarm systems, electronic systems.

1. Double 14' high perimeter fence with 4' control fence
2. Four detection systems in place: electronic perimeter detection systems consist of microwave, perimeter intrusion detection system (PIDS) and cameras
3. Two outside patrol posts
4. Two towers operational 24 hours daily
5. Vehicle Entrance 8-4, Mon-Fri
6. Mast lightin, inside and outside perimeter, dusk to dawn

The facility is equipped with 384 cameras and staff personal alarm systems.

## **SUMMARY OF AUDIT FINDINGS**

After reviewing all information provided during the pre-audit and onsite audit, staff and inmate interviews, as well as visual observations made by the auditor during the facility tour, the auditor has determined the following:

Number of standards exceeded: 4

Number of standards met: 37

Number of standards not met: 0

Number of standards not applicable: 2

## Standard 115.11 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

DC-ADM008 PREA Procedures Manual Section 2 states the Department will take appropriate actions to ensure a zero tolerance toward all forms of sexual abuse and sexual harassment in order to promote the safety of inmates. The Department will implement federal Prison Rape Elimination Act (PREA) Standards to ensure that all aspects of operations work toward preventing, detecting and responding to such conduct resulting in a safer environment.

There is one statewide PREA Coordinator responsible for PREA compliance across the Department. The statewide PREA Coordinator's sole responsibility is to develop, implement and oversee Department efforts to comply with the federal PREA Standards in all of the Department's facilities. The statewide PREA Coordinator will have the authority to make necessary decisions to ensure compliance and report directly to the Executive Deputy Secretary.

The Corrections Classification and Program Manager (CCPM) has been designated as the PREA Compliance Manager (PCM) at each facility and has been given sufficient time and authority to coordinate that facility's compliance with Department policy and federal PREA Standards. The PREA Compliance Manager reports to the Deputy of Centralized Services.

The agency PREA Coordinator position was recently vacated, and the agency is currently in the process of filling this position. In the meantime, the Director of Standards, Audits, and Accreditation has assumed the responsibility of the PREA Coordinator. Interviews with the Director indicates she is allotted ample time to oversee the agency's efforts to ensure PREA compliance in all of its facilities. There are 26 PREA Compliance Managers that report to the PREA Coordinator. The PREA Coordinator and Director communicate with the PREA Compliance Managers on a regular basis via telephone and email, and conducts regular site visits at the facilities. In addition, other agency staff who are also Department of Justice Certified PREA Auditors assist with internal audits and inspections of all agency facilities.

The interview with the PREA Compliance Manager indicates she is not allotted ample time to oversee the facility's PREA compliance. The auditor was advised the facility recently received two additional positions to assist with PREA compliance; a PREA Administrator Officer and a PREA Lieutenant. The auditor was advised these two staff play an instrumental role in the facility's PREA compliance but budget allowed for only one position and the Lieutenant was appointed first and the administrator will be appointed during next budget cycle.

During the onsite audit, the auditor was advised the agency sent the PREA Coordinator as well as other staff members to the Department of Justice Auditor Training. The auditor was advised this is an example of the agency's commitment to the Prison Rape Elimination Act.

### **Standard 115.12 Contracting with other entities for the confinement of inmates**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

DC-ADM008 PREA Procedures Manual Section 2 states the Department shall include in any new contract or contract renewal for the housing of an inmate (on or after the effective date of this procedure) with a private entity or other entity, including other government agencies, the entity's obligation to adopt and comply with the PREA Standards and the Department's policies related to PREA compliance.

The contracted entity will undergo regular, mandated audits on a three-year basis, as required by the National PREA Standards.

The Department shall provide for contract monitoring to ensure that the contract service provider is complying with the PREA Standards with any new contract or contract renewal.

The auditor sampled three contracts for the confinement of inmates that the agency entered into or renewed with private entities or other government agencies on or after August 20, 2012. The contracted facilities include: Lackawanna County, Columbia County, and York County. These agreements include specific language requiring the counties to agree to adopt and comply with all PREA regulations. These agreements also include the Department's right to inspect the facility at any reasonable time. The auditor was advised the facility currently has 57 total contracts (40 CFCs and 17 CCJs).

Through interviews with the PREA Coordinator, it was discovered when these contracts come up for renewal, they will include language specific to PREA requirements.

Interviews with the Agency Contract Administrator indicates facilities the agency contracts with for the confinement of its inmates would be audited annually. In addition, monthly site visits would be conducted on the facility and investigations would be monitored to ensure compliance with the standards.

### **Standard 115.13 Supervision and monitoring**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

6.3.1, Facility Security Procedures Manual Section 15 outlines the agency's staffing plan and the staffing plan audit process.

The PREA Coordinator/designee shall:

- a. serve as a liaison between Executive Staff and the facility PREA Compliance Manager;
- b. review all completed Corrections Officer Staffing Audits submitted by the Central Office Staffing Audit Team; and
- c. when necessary, meet with the Secretary, the EDS, the respective RDS, Facility Manager, and the Central Office Security Division staff member who chaired the audit team to review the findings of the audit.

The PREA Compliance Manager shall:

- a. have opportunity to provide input by documenting any concerns and/or suggestions they may have and submitting them to the Major-of-the-Guard for review prior to the audit being conducted.
- b. prior to the scheduled audit, management and the PREA Compliance Manager shall meet to discuss Corrections Officer staffing issues and may prepare a joint plan for review by the Central Office Staffing Audit Team.
- c. at the conclusion of the audit process, the Central Office Staffing Audit Team shall meet with the PREA Compliance Manager, and discuss any concerns, questions, and/or suggestions of the PREA Compliance Manager.

DC-ADM008 PREA Procedures Manual Section 2 states one of the Statewide PREA Coordinator's and PREA Compliance Manager's duties include; working with each facility on an annual basis to assess, determine, and document whether adjustments are needed to: the staffing plan, deployment of the video monitoring systems and other monitoring technologies, and the resources the facility has available to commit to ensure adherence to the staffing plan. The statewide PREA Coordinator will also review any documentation for non-compliance with a staffing plan.

The Department shall ensure that each facility develops, documents and makes its best efforts to comply on a regular basis, but no less than once a year, with a staffing plan as found in Department policy 6.3.1, Section 15 that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse.

In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration:

- 1) Generally accepted detention and correctional practices;

- 2) Any judicial findings of inadequacy;
- 3) Any findings of inadequacy from Federal investigative agencies;
- 4) Any findings of inadequacy from internal or external oversight bodies;
- 5) All components of the facility's physical plant (including "blind-spots" or areas where staff or inmates may be isolated);
- 6) The composition of the inmate population;
- 7) The number and placement of supervisory staff;
- 8) Facility programs occurring on a particular shift;
- 9) Any applicable State or local laws, regulations, or standards;
- 10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and
- 11) Any other relevant factors.

In circumstances of non-compliance with the staffing plan, the Facility Manager/designee shall document, in writing, and justify all deviations from the plan. This documentation will be forwarded to the Executive Deputy Secretary, Regional Deputy Secretary, and Central Office Security Major.

Whenever necessary, but no less frequently than once a year, each facility shall assess, determine and document whether adjustments are needed to:

- 1) The facility's deployment of video monitoring systems and other monitoring technologies; and
- 2) The resources the facility has available to commit to ensure adherence to the staffing plan.

The annual reviews will be conducted in consultation with the PREA Compliance Manager at that facility and the statewide PREA Coordinator.

There have not been any deviations from the staffing plan within the past 12 months.

6.3.1, Facility Security Procedures Manual Section 15 states unannounced PREA compliance inspections shall be conducted and documented to identify and deter sexual abuse and sexual harassment. These inspections can be incorporated with Administrative/Managerial Visits/Inspections, with the exception that they be documented separately. Staff shall conduct unannounced rounds specific to PREA compliance measures no less than once per month and must occur on all shifts. These inspections shall be documented utilizing the PREA Administrative Tour Documentation Form.

PREA inspections should occur in any and all areas of the facility where there could be a potential for inmates to become a victim of sexual abuse.

Staff conducting PREA inspections shall pay particular attention to the staff and video monitoring of the facility to detect areas that may need enhancement to ensure the sexual safety of the facility.

Staff conducting PREA inspections shall talk with staff and inquire about any perceived areas of concern related to PREA or relating to any problem inmates relating to PREA.

Staff are prohibited from alerting other staff of the conduct of such rounds.

During the pre-audit, the auditor viewed a sample of PREA Administrative Tour Forms that show intermediate and upper-level supervisors rounds are conducted consistently on all three shifts.

During the onsite audit, the auditor viewed log books in various housing units as well as other buildings. Log books indicate intermediate and upper-level unannounced rounds are being conducted regularly on all three shifts.

Staff interviews indicate the facility has developed a staffing plan based on the requirements under PREA. The staffing plan is reviewed once every three years by the Central Office; however, it is reviewed by the facility annually. The PREA Coordinator is consulted regarding assessments and/or adjustments to the staffing plan. Interviews further indicate unannounced rounds are being conducted by intermediate and higher-level facility staff on a regular basis. These rounds are occurring on a frequent, but irregular, basis. Unannounced rounds are documented in the housing unit log book. Supervisors stress to staff they are prohibited from alerting other staff of the unannounced rounds being conducted. Failure to comply with this directive may result in disciplinary action.

#### **Standard 115.14 Youthful inmates**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

XX Not Applicable

DC-ADM 008 PREA Procedures Manual Section 2 states a youthful inmate (under the age of 18) shall not be placed in a housing unit in which the youthful inmate will have sight, sound, or physical contact with any adult inmate through the use of a shared dayroom or other common space, shower area, or sleeping quarters.

In areas outside of housing units, the facility shall either:

- 1) Maintain sight and sound separation between youthful inmates and adult inmates; or

2) Provide direct security staff supervision when youthful inmates and adult inmates have sight, sound, or physical contact.

Upon initial reception to the Department, youthful inmates will enter into an expedited classification process as outlined in Department policy 11.2.1, "Reception and Classification."

1) Male youthful inmates will be transferred to SCI Pine Grove within 24 hours of reception by the Department.

2) Female youthful inmates, under the age of 18, will immediately be placed into the Youthful Inmate Unit at SCI Muncy.

Due to the extremely low number of female youthful inmates that the Department houses at any given time, there are specific provisions that must be followed.

1) Youthful inmates will have a separate housing unit, with sight and sound separation from adult inmates, where they are able to have a separate shower area, separate day room and separate sleeping quarters from adult inmates.

2) Any time that the youthful inmate leaves the separate housing unit, they must be accompanied and supervised directly by a staff member.

3) The staff member is to ensure that there is no inappropriate contact, physical, or verbal, between the youthful inmate(s) and an adult inmate.

The Department shall make every effort to avoid placing youthful inmates in isolation to comply with this provision. Absent exigent circumstances, the Department shall not deny youthful inmates daily large muscle exercise and any legally required special education services to comply with this provision. Youthful inmates shall have access to other programs and work opportunities to the greatest extent possible.

During the pre-audit, the auditor was advised SCI Forest does not house youthful offenders.

#### **Standard 115.15 Limits to cross-gender viewing and searches**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

DC-ADM 008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and

Training states staff shall not conduct cross-gender strip searches, except in exigent circumstances, in accordance with department policy 6.3.1, Section 30. All cross-gender strip searches shall be documented on the Cross-Gender Strip Search Validation Form. A copy of the Cross-Gender Strip Search Validation Form shall be maintained by the Security Office in an annual file for audit verification purposes. Non-medical staff are prohibited from performing visual body cavity searches. These searches shall only be conducted when performed by medical practitioners in accordance with 6.3.1, Section 30.

6.3.1 Facility Security Procedures Manual Section 30- Searches states female staff members may search female, male, transgender, or intersex inmates. Male staff members may search male, transgender, or intersex inmates housed at a male facility. Absent exigent circumstances, male staff members shall not search female, transgender, or intersex inmates housed at a female facility.

SCI Forest does not house female inmates; therefore, PREA standards pertaining to searches of female inmates is not applicable.

In the past 12 months, there have not been any cross-gender strip or cross-gender visual body cavity searches of inmates.

DC-ADM 008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and Training states inmates shall be able to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. This limitation not only applies to in-person viewing, but also to all forms of remote viewing as well.

DC-ADM 008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and Training states staff of the opposite gender shall announce their presence when entering an inmate housing unit in accordance with the following:

- 1) When the status quo of the gender supervision on a housing unit changes from exclusively same gender, to mixed- or cross-gender supervision, the opposite gender staff is required to verbally announce their arrival on the unit. The announcement is required for both custody and non-custody staff, and may include, for example, a clinician or case worker who spends time on the unit, or senior staff making supervisory rounds.
- 2) When an opposite gender staff member is entering a housing unit and it is unknown to him/her whether any other opposite gender staff are present, the entering staff member will announce their presence; and
- 3) This announcement may be made by the officer working the control desk via the intercom system; and
- 4) This announcement may also be made via a specific tone system that is utilized only for the purpose of announcing a member of the opposite gender entering the housing unit. Inmates will be educated on the tone system utilization.

DC-ADM 0008 PREA Procedures Manual Section 9- Working with Transgender/Intersex Inmates states the facility shall not search or physically examine a transgender/intersex inmate for the sole purpose of determining the inmate's status. If the inmate's genital status is unknown, it may be determined by conversations with the inmate, by reviewing medical records, or, if necessary, by

learning that information as part of a broader medical examination conducted in private by a medical practitioner.

During the pre-audit, the auditor was provided with a PowerPoint presentation of the facility's training for offender searches. Absent exigent (important, vital, needful) circumstances, a female staff member shall search a female offender and a male staff member shall search a male offender. Transgender or intersex offenders shall be searched by the gender staff member consistent with the gender of offenders housed at that facility.

The auditor was provided with documentation showing 100% staff, excluding staff on long term sick leave, have received training on conducting cross-gender and transgender searches. The auditor was advised the remaining staff would receive training upon their return to work.

Interviews with random staff indicate most staff were well aware of the prohibition of conducting strip searches on transgender inmates for the sole purpose of determining their genital status. Interviews with both staff and inmates indicate when female staff enter the male housing units, an announcement is made of their presence and male inmates are rarely naked in full view of the female staff (when this occurs it appears to be accidental and extremely rare). Inmate interviews indicate this announcement has been occurring consistently for the last two to three years.

#### **Standard 115.16 Inmates with disabilities and inmates who are limited English proficient**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

DC-ADM 006 Reasonable Accommodations for Inmates with Disabilities Manual Section 1-General Procedures, DC-ADM 006 Reasonable Accommodations for Inmates with Disabilities Manual Section 2- Accommodations, DC-ADM 818 Automated Inmate Telephone System, and DC-ADM 006 Reasonable Accommodations for Inmates with Disabilities Manual Section 3- Specific Disabilities outlines the agencies approach to providing services to inmates with disabilities.

DC-ADM 0008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and Training states:

- 1) Pursuant to Department policy DC-ADM 006, "Reasonable Accommodations for Inmates with Disabilities," the Department shall ensure that inmates with disabilities have an equal opportunity to participate in or benefit from all aspects of the Department's efforts to prevent, detect, and respond to sexual abuse and sexual harassment.
- 2) Written materials will either be delivered in alternative formats that accommodate the inmate's

disability or the information will be delivered through alternative methods, such as reading it to the inmate or communicating through an interpreter, which ensures the understanding of the PREA related material.

3) The Department shall take reasonable steps to ensure meaningful access to all aspects of the Department's efforts to prevent, detect and respond to sexual abuse and sexual harassment to inmates who are limited English proficient, including steps to provide qualified interpreters. The PREA Compliance Manager will ensure that only staff members or qualified contractors who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary, provide translation for inmates. If a multi-lingual staff member is not available, then the "AT&T Language Line" or equivalent service must be utilized.

4) The Department shall not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter would compromise the inmate's safety, the performance of first response duties under PREA Standard, or the investigation of the inmate's allegations. Justification for any use of an inmate assistant shall be documented accordingly.

In the past 12 months, there have been no instances where inmate interpreters, readers, or other types of inmate assistants have been used.

During the pre-audit, the auditor was provided with a copy of a contract with Propio Language Services. This contract shows to be valid from September 1, 2014 to June 30, 2016.

During the onsite audit, the auditor observed PREA posters posted in the housing units that contained information in both English and Spanish.

While onsite, the auditor conducted an interview with a Spanish speaking inmate, utilizing the language line. Using this service, the auditor was able to communicate effectively with the Spanish speaking inmate.

The interview with the Agency Head indicates the agency has access to the TTY phone for the hearing impaired, a language line service for non-English speaking inmates, and provides handouts and inmate handbooks in both English and Spanish. In addition, the agency has recently used one of its facilities to transcribe text into braille for the vision impaired.

#### **Standard 115.17 Hiring and promotion decisions**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

4.1.1 Human Resources and Labor Relations Manual Section 41- Employment of Job Applicants Having Prior Adverse Contacts with Criminal Justice Agencies states:

Prior employment in any type of prison, jail, lockup, community confinement facility, juvenile facility, or other institution will be further investigated to ensure that the candidate has not been found to have any of the following:

- a. has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, or other correctional institution;
- b. has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse;
- c. has been civilly or administratively adjudicated to have engaged in the activity described above; and/or
- d. the Department will consider any incidents of sexual harassment in determining whether to hire or promote anyone.

Centralized Clearances 1.1.4 states prior employment of contractors will be further investigated to ensure that the Department does not enlist the services of any contractor(s) who may have contact with inmates who:

- a. have engaged in sexual abuse in a prison, jail, lockup, community facility, juvenile facility, or other institution (as defined as 42 U.S.C. 1997); and/or
- b. have been convicted or civilly or administratively adjudicated for engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse.

The Department shall consider any incidents of sexual harassment in determining whether to enlist the services of any contractor who may have contact with inmates.

The PREA Current/Prior Employer Letter is used to solicit specific information from prior employers regarding the applicant's previous misconduct.

In the past 12 months, there were 55 out of 55 staff who may have contact with inmates who have had criminal background record checks conducted by the facility.

In the past 12 months, there were a total of 403 criminal background record checks conducted on contractors, vendors, and volunteers.

4.01.01 Human Resources and Labor Relations Manual Section 40- Conducting Employee Background Investigations states Human Resources Offices will be responsible for ensuring the PREA Annual Employee Compliance Verification Form is completed in conjunction with each employee's annual Employee Performance Review.

The DOC application requires employees to take an oath sworn before a Notary Public that this

application and any attachments contain no misrepresentations, falsifications, omissions, or concealment of material fact.

Interviews with the Human Resources staff indicate criminal background checks are conducted on all newly hired employees. Through interviews with Administrative Staff, it was discovered the Agency utilizes "JNET," which notifies them immediately, anytime a staff member is arrested. This system is real-time; therefore, documented background checks for employees every 5 years is not necessary.

During the onsite audit, the auditor observed three bathroom areas in one housing unit which is located inside a closed door in a dormitory style housing unit. It was stated to the auditor the door to the bathroom is left open but the concern is the door to the dormitory area is always closed. The recommendation was made to place a vent in the wall between the day room and the shower. This would allow for sound into other areas should an incident occur. The work order was completed and a copy provided to the auditor before leaving the facility.

During the pre-audit, the auditor was provided with an MOU with DRMC Hospital . These services are provided by SANEs working at the hospital. Due to limited access and the remote location DRMC is currently the only hospital which has one SANE and three in the process of being certified. In case of severe trauma Hamot Hospital in Erie, PA would be utilized.

Within the last 12 months, there has been eleven forensic medical examinations conducted. These examinations were conducted by either SANEs/SAFEs, or qualified medical practitioners at DRMC Hospital .

During the pre-audit, the auditor was provided with a documented MOU for victim advocate services; A Safe Place Advocacy Center. The auditor was provided with documentation for outside supportive services. The auditor spoke with a representative of A Safe Place Advocacy Center and was advised by their representative that they have staff available to respond and provide victim advocate services in the event an inmate was sexually abused. These services are available 24 hours a day, 7 days a week.

During the pre-audit, the auditor was provided with an MOU between the Secretary of Corrections and the Pennsylvania State Police (PSP), dated September 24, 2013. The auditor was provided with documentation from PSP to the agency stating PSP will follow the subject standard of 115.21.

During the pre-audit, the auditor was advised all staff, who may have contact with inmates, were trained or retrained on the PREA requirements enumerated above.

Between trainings the agency provides employees who may have contact with inmates with information about current policies regarding sexual abuse and sexual harassment. Policy updates are provided during odd numbered years and basic refresher training is offered on even numbered years.

This information shall be provided in formats accessible to all inmates, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills.

During the intake process, all inmates, including Parole Violators (PVs), shall receive information explaining the zero tolerance policy regarding sexual abuse and sexual harassment, and how to report incidents or suspicions of sexual abuse, sexual harassment or retaliation, and what to do if he/she is the victim of sexual abuse, sexual harassment, or retaliation. Any inmate that is transferred must receive education upon transfer, only to the extent that the policies and procedures of the inmate's new facility differ from those of the previous facility.

- 1) The PREA video is to be played a minimum of two times each month over the inmate television channel.
- 2) During the inmate's annual review, the Counselor will discuss issues related to sexual abuse in prison and offer the inmate an opportunity to discuss related concerns. The counselor will provide a Sexual Abuse Awareness Informational Brochure at the time of his/her annual review.

3) Sexual abuse, sexual harassment and retaliation training shall be documented by the inmate signing the PREA Inmate Education Verification Form (Attachment 2-K). This form will be filed in the DC-14. Provision of PREA Inmate Education shall be documented in an Inmate Cumulative Adjustment Record (ICAR) entry.

During the past 12 months, 704 inmates were admitted and 704 received such information at intake. All inmates received comprehensive education on their rights to be free from both sexual abuse/harassment and retaliation for reporting such incidents and on agency policies and procedures for responding to such incidents within 30 days of intake.

Additional information about the agency's PREA policies is continuously and readily available or visible through posters, inmate handbooks, and other written formats. During the pre-audit, the auditor was provided with a copy of the inmate handbook, PREA inmate educational posters, and PREA staff educational posters.

During an interview with a member of the intake staff, it was discovered inmates receive PREA education as soon as they arrive at the facility, as part of their orientation. This education consists of a brochure containing information on their rights under PREA as well as how to report information related to sexual abuse. The intake staff member discusses this information with the inmates and answers any questions the inmates may have. Within a week, the new intakes for that week watch a PREA educational video. Inmates are required to sign an acknowledgement that they have received this education.

Through interviews with inmates it was confirmed all inmates are given a PREA brochure at intake. The inmates advised that every Friday, the new intakes receive comprehensive PREA education through a PREA educational video. The PREA educational video is also played on an inmate movie channel approximately once a week. In addition, the facility displays PREA information on the Inmate Channel, Channel 37, on a continuous basis.

DC-ADM 008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and Training states all inmates shall be assessed during the intake screening process, upon receipt into another facility, whenever an inmate is involved in an incident of sexual abuse and at their annual review, for risk of being sexually abused by other inmates or sexually abusive toward other inmates.

The initial assessment (within 72 hours of reception) shall consider prior acts of abuse, prior convictions for violent offenses, and history of prior facility violence or sexual abuse, as known to the Department, in order to assess inmates for the risk of being sexually abusive.

During the past 12 months, all inmates entering the facility whose length of stay in the facility was 72 hours or more, were screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their entry into the facility.

DC-ADM 008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and Training states the PREA risk assessments shall be conducted utilizing the PRAT. The tool will be an objective instrument that shall consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization or abusiveness.

During the pre-audit, the auditor reviewed a random sample of PRATs. Initial assessments occurred within 72 hours of intake, and all of the 30 day reassessments that were sampled, occurred within 20-30 days of intake.

During the pre-audit, the auditor was provided with a copy of the PRAT. A review of the instrument shows all the required questions are being asked and the tool is an objective point based screening instrument.

DC-ADM 008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and Training a reassessment will be conducted between day 20 and 30 of the inmate's arrival in the system or receipt into another facility utilizing the PRAT. Additionally, the Counselor will reassess the inmate's risk of victimization or abusiveness based upon any additional, relevant information received by the facility staff since the intake screening. An inmate's risk level will be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of victimization or abusiveness utilizing the PRAT. Inmates shall not be disciplined for refusing to answer, or for not disclosing, complete information in response to the questions regarding prior victimization, disabilities, their perception of vulnerability or their sexual orientation.

During the past 12 months, all inmates whose length of stay was 30 days or more, were reassessed for their risk of sexual victimization or of being sexually abusive within 30 days after their arrival.

During the onsite audit, the auditor conducted a review of five additional random sample of PRATs. All five samples had documentation of an initial PRAT being conducted within 72 hours of intake, as well as another PRAT conducted 20-30 days later.

Staff interviews indicate any inmate scoring affirmatively as a potential victim and/or potential predator would initiate a “housing concern” in the computer. Staff would have access to see the “housing concern” in the computer; however, they would not have any access to the actual results of the screenings.

#### **Standard 115.42 Use of screening information**

DC-ADM 008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and Training states the information received through the administration of the PRAT questions shall be used to inform housing, bed placement, work, education, and program assignments with the goal of keeping separate those inmates at high risk for being sexually victimized from those at high risk of being sexually abusive. The sensitive information collected through these tools shall be kept as confidential as possible so as not to be used to the inmate’s detriment by staff or other inmates. The Department shall make individualized determinations about how to ensure the safety of each inmate.

DC-ADM 008 PREA Procedures Manual Section 9- Working with Transgender/Intersex Inmates states when deciding whether to assign a transgender/intersex inmate to a facility for male/female inmates, and in making other housing and programming assignments, the Department shall consider, on a case by case basis, whether a placement would ensure the inmate’s health and safety and whether the placement would present management or security problems. A transgender/intersex inmate’s own views, with respect to his/her own safety shall be given serious consideration. All pertinent information regarding the transgender/intersex individual should be discussed on a need-to-know basis and shared only with the appropriate staff to provide necessary services.

Interviews with staff indicate the screening instrument is being used to keep any inmate that scores to be a potential victim from inmates that score to be a potential predator. Transgender inmates would be housed in general population and would be afforded the opportunity to shower separately. A transgender inmate’s views in respect to their own safety is given serious consideration in determining placement and program assignments. A transgender inmate’s placement and programming assignments are reassessed every six months by the gender review committee.

Showers consist of single showers with doors and curtains that help to ensure privacy.

If the facility cannot conduct the assessment immediately, the facility may hold the inmate in involuntary AC for less than 24 hours while completing the assessment.

Within the last 12 months, there have not been any inmates placed in involuntary segregated housing for risk of sexual victimization.

In accordance with Department policy DC-ADM 802, Administrative Custody Procedures, at least every 30 days, the Program Review Committee (PRC) shall ensure each inmate is reviewed to determine whether there is a continuing need for separation from the general population. This review shall be documented on the DC-141, Part 3, Employee Report of Incident (Other).

Through staff interviews it was determined inmates at high risk of sexual victimization are not placed in segregated housing. The auditor was advised these inmates would be placed in other housing units, if at all possible. In the event an inmate at high risk of sexual victimization was placed in segregated housing, the inmate would have access to privileges and programs when at all possible. If these privileges and programs had to be restricted, the facility would document the activities restricted and the reason for the restriction.

DC-ADM 008 PREA Procedures Manual Section 3- Reporting Sexual Abuse and Sexual Harassment states inmates shall not utilize the inmate grievance system to report sexual abuse by a staff member or inmate-on-inmate sexual contact, as defined in the Glossary. However, if an inmate files a grievance related to sexual abuse, the Grievance Officer shall reject the grievance and forward to the facility Security Office for tracking and investigation. The inmate will be notified of this action. This would be considered an exhaustion of administrative remedies.

DC-ADM 004 Inmate Grievance System Procedures Manual Section 1- Grievances and Initial Review states a grievance regarding an allegation of a sexual nature (abuse/harassment) against a staff member or inmate-on-inmate sexual contact will not be addressed through the Inmate Grievance System and must be addressed through Department policy DC-ADM 008. These allegations are taken seriously by the Department and must and will be investigated to make sure that inmates are safe in the facilities. If a grievance is filed regarding an allegation of a sexual nature (abuse/harassment) against a staff member or inmate-on-inmate sexual contact, while it will not be addressed through the inmate Grievance System, the grievance will be immediately forwarded to the Security Department as well as PREA Compliance Manager in accordance with Department policy DC-ADM 008 to start an investigation.

DC-ADM 008 PREA Procedures Manual Section 4- Responding to Reports of Sexual Abuse the Department works in collaboration with the Pennsylvania Coalition against Rape (PCAR) and its member centers. The facility PREA Compliance Manager, in conjunction with the statewide PREA Coordinator, has worked to establish mutual agreements with local rape crisis centers where all Department facilities are located. Copies of these agreements shall be maintained by the Department.

The PREA Compliance Manager shall ensure that inmates are offered and provided with access to outside victim advocates for emotional supportive services related to sexual abuse which has occurred in a confinement setting. During non-working hours, the Shift Commander will be responsible to ensure the aforementioned support services. Supportive services may be provided via a variety of methods including in person, during a non-monitored phone call and/or in writing. The preferred service delivery method is in person in a confidential setting.

The PREA Compliance Manager shall inform inmates, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws.

An inmate will be offered the opportunity to talk with a victim advocate and receive continued care when they have been a victim of facility sexual abuse, no matter if they reported the facility sexual abuse immediately or made a delayed disclosure.

During the pre-audit, the auditor was provided with a advocacy consent forms signed by the inmate. The auditor was also provided with email documentation showing that victim advocate services are being provided to inmates that request such services.

During the pre-audit, the auditor was provided with a documented MOU for victim advocate services; A Safe Place Advocacy Center. The auditor contacted A Safe Place and spoke with a representative who confirmed victim advocates would be provided to SCI Forest inmates who reported a sexual abuse. The auditor was advised these services would be available 24 hours a day, 7 days a week.

Through random inmate interviews as well as interviews with inmates who reported a sexual abuse, it was determined that some of the inmates were familiar with the victim services that are available for victims of sexual abuse. These inmates acknowledged having access to mailing addresses through posters posted in the housing units, as well as through brochures that were given to them at intake.

DC-ADM 008 PREA Procedures Manual Section 3- Reporting Sexual Abuse and Sexual Harassment states any staff member, contract service provider, volunteer or intern, shall immediately report to the Shift Commander if he/she has knowledge, suspicion, or information regarding any of the following:

- 1) Sexual abuse of an inmate;
- 2) Sexual harassment of an inmate that occurred in a facility;

Through interviews with a random sample of staff as well as interviews with medical and mental health staff, it was determined that all staff have a duty to report any knowledge, suspicion, or

information related to sexual abuse or sexual harassment. Staff are also required to report any retaliation towards any inmate or staff for reporting and any staff neglect that may have contributed to an incident or retaliation.

DC-ADM 008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and Training ensures that when Department staff learn that an inmate is subject to a substantial risk of imminent sexual abuse, appropriate and immediate action will be taken to protect that inmate.

In the past 12 months, there has have not been any instances where the agency has determined that an inmate was subject to a substantial risk of imminent sexual abuse.

Through interviews with staff, it was determined staff take immediate action to separate the alleged victim and abuser whenever it is determined an inmate may be at risk for imminent sexual abuse. The Shift Commander and Security Office would both be notified.

DC-ADM 008 PREA Procedures Manual Section 3- Reporting Sexual Abuse and Sexual Harassment states:

An inmate may file a report of sexual abuse, sexual harassment, or retaliation sustained while confined at another facility.

It is the Facility Manager/designee's responsibility to notify the head of the facility in which the reported abuse, harassment or retaliation occurred. Notification must be provided as soon as possible, but no later than within 72 hours after receipt of information and documented on the Notification of Sexual Abuse/Harassment Allegation to Another Facility (Attachment 3-B). This document shall be maintained by the PREA Compliance Manager in an annual file for audit verification purposes in accordance with Section 1 of this procedures manual.

A copy of the notification must also be sent to the facility PREA Compliance Manager and the statewide PREA Coordinator/designee for tracking purposes.

If the facility being notified is another facility within the Department, the PREA Compliance Managers for involved facilities shall coordinate the information flow as to ensure:

- 1) All information is shared to ensure a thorough and expedient investigation is completed; and
- 2) The inmate receives information regarding the investigation in a confidential and timely manner as to comply with Section 8 of this procedures manual.

Upon receipt of an allegation from another facility that an inmate was sexually abused, harassed or retaliated against while confined at that location, the Facility Manager/designee at the receiving facility shall document the receipt of the allegation on the Notification of Sexual Abuse/Harassment Allegation to Another Facility.

The Facility Manager/designee shall immediately notify the Security Office to initiate a PREA investigation as outlined in Section 5 of this procedures manual.

The Facility Manager/designee shall send notification and supporting documentation to the facility PREA Compliance Manager and the statewide PREA Coordinator/designee within five working days of the receipt of the allegation.

During the past 12 months, the facility has received one allegation of sexual abuse from another facility. This allegation was documented and referred for investigation.

During the past 12 months, the facility received 3 allegations that an inmate was abused while confined at another facility. During the pre-audit, the auditor was provided with a sample of three notifications. All three notifications were provided, facility head to facility head, within 72 hours of receipt of the information.

Through staff interviews, it was determined when SCI Forest receives an allegation from another facility or agency that an incident of sexual abuse or sexual harassment occurred within their facility, the allegation would immediately be assigned to an investigator and would be investigated. SCI Forest would refer any allegations they receive for sexual abuse that occurred at other facilities, to the head of the outside facility. The notification would be made from the Superintendent at SCI Forest to the Facility Head where the abuse allegedly occurred, and the notification would occur within 72 hours after receiving the information.

DC-ADM 008 PREA Procedures Manual Section 4- Responding to Reports of Sexual Abuse states: Upon learning of an allegation that an inmate was sexually abused, the first staff member to respond shall:

1) Security Staff

- a. notify the facility's main control center;
- b. immediately separate the alleged victim and alleged abuser;
- c. secure any reported crime scene until appropriate steps can be taken to collect evidence; and
- d. if the abuse occurred within the last 96 hours that still allows for the collection of physical evidence, request the alleged victim and ensure that the alleged abuser not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating.

2) Non-Security Staff

- a. Immediately notify the facility's main control center/security staff; and
- b. if the first staff responder is not a security staff member, the responder shall be required to request that the alleged victim not take any actions that could destroy physical evidence.

During the past 12 months, there have been 27 allegations that an inmate was sexually abused. Of these allegations, 11 times the first security staff member to respond to the report separated the alleged victim and abuser. Of these allegations, there were three instances where evidence preservation was necessary. The facility took steps to preserve evidence in all three of these instances.

During the past 12 months, there have not been any allegations that an inmate was sexually abused where a non-security staff member was the first responder. The non-security staff member to respond to this report:

- 1) Notified security staff in all three instances.
- 2) Requested that the alleged victim not take any actions that could destroy physical evidence for one of the allegations.

During the pre-audit, the auditor was provided with a copy of a pocket card containing immediate response procedures that was given to all employees.

Through interviews with inmates and staff, it was determined staff have responded promptly to outcries of sexual abuse. Staff know to separate the victim from the abuser as well as how to preserve evidence. Staff are aware to keep information related to sexual abuse investigations confidential.

DC-ADM 008 PREA Procedures Manual Section 4- Responding to Reports of Sexual Abuse states the facility shall develop a written facility plan to coordinate actions taken in response to an incident of sexual abuse, among staff first responders, medical and mental health practitioners, investigators, and facility leadership. This policy outlines the facility’s coordinated response plan.

Through interviews with staff, it was determined the facility follows a statewide DOC coordinated response plan for allegations of sexual abuse that involves a checklist of responsibilities.

The Department operates within the confines of collective bargaining agreements with eight (8) different unions. None of these collective bargaining agreements contain language that limit the ability to remove an alleged staff sexual abuser from contact with any inmates pending the outcome of an investigation or a determination of whether and to what extent discipline is warranted. In addition, the collective bargaining agreements are silent regarding suspensions pending investigation.

When the contract is silent on issues, policy then governs.

A memo from the Secretary of Corrections dated January 12, 2015, states the Department does not need to demonstrate that the employee committed the suspected offenses; but rather, that the “nature of the allegations” are such that there is just cause to remove the employee from the institution pending the outcome of the investigation.

During the Agency Head interview, the Agency Head confirmed the Department operates with collective bargaining agreements; however, these agreements do not restrict the Agency from removing staff abuser from contact with inmates under these terms.

#### **Standard 115.67 Agency protection against retaliation**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

DC-ADM 008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and Training states the agency will ensure retaliation monitoring of the following inmates:

- 1) Those that have reported institutional sexual abuse or sexual harassment allegations;
- 2) Those that have suffered sexual abuse; and/or
- 3) Those that have expressed a fear of retaliation due to cooperation with an investigation of an incident related to this procedures manual.

Specifically, the PREA Compliance Manager will ensure that such inmates are provided with the opportunity to meet with a corrections counselor, in accordance with Attachment 2-B, DOC Retaliation Monitoring form, who will then report to the PREA Compliance Manager. If the PREA Compliance Manager determines that the initial monitoring indicates a continuing need, the periodic status checks will be extended beyond 90 days by the corrections counselor.

The PREA Compliance Manager will also notify the Deputy of Centralized Services (DSCS) when staff require monitoring due to report of sexual abuse, or because of an expressed fear of retaliation due to cooperation with an investigation of inmate sexual abuse or sexual harassment, per PREA Standard (§115.67 [a][c][e]) and in accordance with Section 3, Subsection F. of the procedures manual.

Retaliation will be monitored for a minimum of 90 days for all allegations.

During the past 12 months, there have been no incidents of retaliation reported.

During the pre-audit, the auditor was provided with samples of documentation related to retaliation monitoring.

Through various staff and inmate interviews, it was discovered multiple measures are taken to ensure against retaliation. In order to protect against retaliation, the PREA Compliance Manager would complete a monitoring form and have the unit counselors monitor for retaliation. This information would be logged in a spreadsheet. Counselors would check on the inmate sometime between the first 48-96 hours, 15 days, 30 days, 60 days, and 90 days. If necessary due to the circumstances, retaliation may be monitored indefinitely.

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

DC-ADM 008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and Training states inmates at a high risk for sexual victimization or inmates that have alleged abuse shall not be placed involuntarily in Administrative Custody (AC) as a means of protection unless an assessment of all available alternatives has been made by Psychology and Security staff in conjunction with the PREA Compliance Manager, and a determination has been made that there is no other available alternative means of separation from likely abusers. If the facility cannot conduct the assessment immediately, the facility may hold the inmate in involuntary AC for less than 24 hours while completing the assessment.

During the past 12 months, there have been not been any instances where an inmate was placed in involuntary segregated housing awaiting completion of an assessment.

Through interviews with staff, it was discovered inmates who allege to have suffered sexual abuse or are at risk of sexual victimization are rarely (if ever) placed in involuntary segregated housing. Alternative housing in another general population housing unit or protective custody would be found. If an inmate were to be placed in involuntary segregated housing for these reasons, they would still have access to programs, privileges, education, and work opportunities to the extent possible. If any activities are restricted, the staff would document the opportunities limited, the duration of the limitation, and the reason for the limitation.

DC-ADM 008 PREA Procedures Manual Section 5- Investigating Allegations of Sexual Harassment and/or Sexual Abuse outlines both criminal and administrative agency investigations.

Substantiated allegations of conduct that appear to be criminal are referred for prosecution.

Since August 20, 2012, there have been zero allegations of conduct that appear to be criminal that were referred for prosecution. There is currently an open case that is being investigated by the PSP.

The agency retains all written reports pertaining to the administrative or criminal investigation of alleged sexual assault or sexual harassment for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

Through interviews with inmates who allege to have suffered from sexual abuse, it was determined investigative staff do not require victims to take a polygraph examination as a condition for proceeding with the investigation.

Through staff interviews, it was determined the Security Office would be informed on the progress of any investigations conducted by the Pennsylvania State Police. They would receive this information by regular correspondence via phone and/or email. Investigators have received specialized training for conducting sexual abuse investigations in confinement settings. Training topics included techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative or prosecution referral. Investigations into allegations of sexual abuse or sexual harassment occur immediately upon receipt of such information. If the sexual abuse occurred within 96 hours, the alleged victim would be transported to the local hospital for a SAFE/SANE exam. Criminal investigations would be forwarded to the Pennsylvania State Police for investigation. Investigations continue, even if the staff member terminates employment or the inmate transfers to another facility. Both administrative and criminal investigations would be documented in investigation reports.

#### **Standard 115.72 Evidentiary standard for administrative investigations**

- Exceeds Standard (substantially exceeds requirement of standard)

**determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

DC-ADM 008 PREA Procedures Manual Section 5- Investigating Allegations of Sexual Harassment and/or Sexual Abuse states in administrative investigations, the Department shall impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual harassment/sexual abuse are substantiated.

Interviews with investigative staff indicate a preponderance of evidence is used when determining whether to substantiate allegations of sexual abuse or sexual harassment.

### **Standard 115.73 Reporting to inmates**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

DC-ADM 008 PREA Procedures Manual Section 8- Notification of Inmates states following the investigation into an inmate’s allegation that he/she suffered sexual abuse or sexual harassment in a facility within the Department, the Prison Rape Elimination Act (PREA) Compliance Manager at the facility where the inmate is housed shall inform the inmate, in writing on the PREA Investigation – Inmate Notification Form (Attachment 8-A) as to whether the allegation has been determined to be substantiated, unsubstantiated or unfounded.

A review of notifications indicate inmates are being responded to, in writing, as to the outcome of the investigation.

If another agency conducts the investigation, the PREA Compliance Manager shall request the relevant information from the investigative agency in order to inform the inmate.

Following an inmate’s allegation that a staff member has committed sexual abuse or sexual harassment against an inmate, the PREA Compliance Manager shall subsequently inform the inmate when any of the following occurs:

- 1) The staff member is no longer posted within the inmate’s unit;
- 2) The staff member is no longer employed at the facility;
- 3) The Department learns that the staff member has been criminally charged related to sexual abuse within the facility; or

4) The Department learns that the staff member has been convicted on a charge related to sexual abuse within the facility.

During the past 12 months, there were 27 criminal and/or administrative investigations of alleged inmate sexual abuse that were completed by the agency/facility. Of these investigations, 18 inmates were notified, verbally or in writing, of the results of the investigation. There are currently two investigations still ongoing.

Through interviews with various staff and inmates, it was determined the PREA Compliance Manager notifies the inmate, in writing, as to whether the allegation was substantiated, unsubstantiated, or unfounded.

#### **Standard 115.76 Disciplinary sanctions for staff**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

DC-ADM 008 PREA Procedures Manual Section 7-Discipline Related to Sexual Abuse, Sexual Harassment, and Retaliation states any employee who violates Department sexual abuse or sexual harassment policies by engaging in, failing to report, or knowingly condoning sexual abuse or sexual harassment of an inmate shall be subject to appropriate disciplinary or administrative action up to and including termination.

When an allegation is made involving a staff member, contract service provider or volunteer this person will be removed from contact with the alleged victim until the conclusion of this investigation.

In the event that a staff member is terminated, or resigns in lieu of discharge, for violation of the this procedures manual, the Bureau of Human Resources (BHR) will notify the Office of Special Investigations and Intelligence (OSII) to determine if a potential criminal violation exists and notify any licensing bodies. If the violation meets criminal standards, OSII will refer the matter to the District Attorney's Office that has jurisdiction over the affected facility for prosecution purposes.

During the past 12 months, there has been one staff from the facility who violated agency sexual abuse or sexual harassment policies. This staff member was terminated for violating these policies and was also reported to the PSP for criminal investigation.

Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for

comparable offenses by other staff with similar histories.

All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies.

**Standard 115.77 Corrective action for contractors and volunteers**

DC-ADM 008 PREA Procedures Manual Section 7-Discipline Related to Sexual Abuse, Sexual Harassment, and Retaliation states:

- 1) When an allegation is made involving a contractor or volunteer, this person will be removed from contact with the alleged victim until the conclusion of this investigation;
- 2) If a contractor or volunteer violates this procedures manual, other than by engaging in sexual abuse, the facility shall take appropriate remedial measures and shall consider whether to prohibit further contact with inmates;
- 3) Any contractor or volunteer who engages in sexual abuse shall be prohibited from contact with inmates, and shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies.

During the past 12 months, there have not been any contractors or volunteers reported to law enforcement for engaging in sexual abuse of inmates.

Staff interviews indicate that any contractor or volunteer suspected of sexual abuse or sexual harassment would be removed from the building and prohibited from contact with inmates. Remedial disciplinary measures, such as counseling and further monitoring, would be considered for minor policy violations, depending on the circumstances. Any contractor or volunteer found to have committed a major policy violation would be banned from the facility. Criminal charges would be filed when appropriate.

**Standard 115.78 Disciplinary sanctions for inmates**

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

DC-ADM 008 PREA Procedures Manual Section 7-Discipline Related to Sexual Abuse, Sexual Harassment, and Retaliation states:

- 1) Inmates shall be subject to disciplinary sanctions pursuant to the formal disciplinary process, following an administrative finding that the inmate engaged in inmate-on-inmate sexual abuse or following a criminal finding of guilt for inmate-on-inmate sexual abuse.
- 2) Sanctions shall be commensurate with the nature and circumstances of the abuse committed, the inmate's disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories.
- 3) The disciplinary process shall consider whether an inmate's mental disabilities or mental illness contributed to his/her behavior when determining what type of sanction, if any, should be imposed.
- 4) When an inmate is found guilty of a Class 1 Misconduct related to sexual abuse, the Unit Manager shall refer the inmate to the Sex Offender Treatment Program for evaluation to determine whether or not the inmate is appropriate for the program and if the inmate will be required to complete the program as part of the sanctions or as a condition to access programming or other benefits.
- 5) The facility may discipline an inmate for sexual contact with staff only if it is substantiated that the staff member did not consent to such contact.
- 6) For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.
- 7) A reporting inmate may only be subjected to discipline if the report is determined to be unfounded with proven malicious intent at the conclusion of a full investigation.
- 8) The Department prohibits all sexual activity between inmates and may discipline inmates for such activity. The Department will not deem such activity to constitute sexual abuse if the Department through the investigative process determines that the activity is not coerced or forced.

During the past 12 months, there have been three administrative findings of inmate-on-inmate sexual abuse that has occurred at the facility.

Staff interviews indicate inmates found to have engaged in sexual abuse or sexual harassment may face a misconduct hearing and/or criminal charges depending upon the circumstances.

Staff interviews indicate inmate perpetrators of sexual abuse are referred for a mental health

evaluation, and this evaluation is conducted within 14 days.

Staff interviews indicate inmates who have violated the agency's sexual abuse and sexual harassment procedures would go through a disciplinary hearing. If the allegations were criminal in nature, the Pennsylvania State Police may pursue criminal charges.

DC-ADM 008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and Training states if the screening pursuant to PREA Standard 115.41 indicates that a prison or jail inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a medical and mental health practitioner within 14 days of the intake screening or sooner, if clinically indicated.

If the screening pursuant to PREA Standard 115.41 indicates that a prison or jail inmate has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening. In addition, when information becomes available relating to perpetration of inmate-on-inmate sexual abuse history, a mental health evaluation will be conducted on these abusers within 60 days of learning of such abuse history and offer treatment when deemed appropriate by mental health practitioners.

Any information related to sexual victimization or abusiveness occurring in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans, security and management decisions, including housing, bed placement, work, education, and program assignments, or otherwise required by Federal, State, or local law.

Medical and mental health practitioners shall obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of 18. The DC-484 (13.08.01 Delivery of Mental Health Services, Attachment 2-A) will be used for this purpose. If the inmate refuses to sign, it shall be noted on the DC-484 and signed by the witness and maintained in the medical record.

During the past 12 months, 100% of inmates who disclosed prior victimization during screening were offered a follow-up meeting with a medical or mental health practitioner.

During the past 12 months, 100% of inmates who have previously perpetrated sexual abuse were

offered a follow-up meeting with a mental health practitioner.

During the onsite audit, the auditor reviewed a sample of records of both inmates who disclosed prior victimization as well as inmates who have previously perpetrated sexual abuse. The inmates sampled had documentation of a mental health evaluation within 14 days.

During the pre-audit, the auditor was provided with samples of medical/mental health logs and secondary materials.

Through various interviews with staff and inmates, it was reiterated that inmates who disclose victimization and inmates who have previously perpetrated sexual abuse are offered a follow-up meeting with medical and mental health staff within 14 days. Staff obtain informed consent prior to reporting about prior sex victimization that did not occur in an institutional setting.

DC-ADM 008 PREA Procedures Manual Section 4- Responding to Reports of Sexual Abuse states:

Inmate victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services. The nature and scope of such services are determined by medical and mental health practitioners according to their professional judgement.

The alleged victim of sexual abuse shall be offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate.

Treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

During the pre-audit, the auditor was provided with various medical forms used to document the medical evaluation.

Through various staff and inmate interviews, it was discovered inmate victims of sexual abuse receive timely and unimpeded access to emergency treatment and crisis intervention services. If the abuse occurred within 96 hours, the inmate would immediately be taken down to medical to receive stabilization treatment and would then be transferred to the hospital. Inmates receive treatment based on the medical and/or mental health staff's professional opinion. Victims of sexual abuse are offered timely information about access to emergency contraception and sexually transmitted

infection prophylaxis.

**Standard 115.83 Ongoing medical and mental health care for sexual abuse victims and abusers**

- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. DC-ADM 008 PREA Procedures Manual Section 4- Responding to Reports of Sexual Abuse states the facility shall offer medical and mental health evaluation and, as appropriate, treatment to all inmates who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility.

Inmate victims of sexual abuse while incarcerated shall be offered tests for sexually transmitted infections, as medically appropriate.

DC-ADM 008 PREA Procedures Manual Section 2- Sexual Abuse/Sexual Harassment Prevention and training states for any identified facility sexual predators, refer to Department Policy 11.2.1 Section 5, for appropriate custody level and program code assignment. In addition, a mental health evaluation will be conducted on these abusers within 60 days of learning of such abuse history and offer treatment when deemed appropriate by mental health practitioners.

Facility is an all-male facility; therefore, PREA Standard 115.83 (d)-1 and 115.83 (e) - 1 are not applicable.

Through various staff and inmate interviews, it was determined medical treatment for sexual abuse victims would include a medical evaluation from one of the Registered Nurses working at the facility. If warranted, the inmate would be taken to the DRMC Medical Center for treatment. Mental Health staff would conduct an evaluation immediately if possible, but no later than the next business day.

**Standard 115.86 Sexual abuse incident reviews**

- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. **recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

DC-ADM 008 PREA Procedures Manual Section 6- Sexual Abuse Incident Review states each facility shall conduct a Sexual Abuse Incident Review at the conclusion of every sexual abuse investigation where the allegation was substantiated or unsubstantiated, whether they are conducted by facility Security Office or by the Office of Special Investigations and Intellegience. No review will be conducted if the allegation has been determined to be unfounded. The review shall occur within 15 working days of receipt of the notification from OSII that the investigation was deemed satisfactory.

The Prison Rape Elimination Act (PREA) Compliance Manager will chair the Sexual Abuse Incident Review Committee. The PREA Compliance Manager, in collaboration with the Facility Manager, will determine the exact composition of the team based on the nature of the incident. At a minimum, the Sexual Abuse Incident Review Team will consist of the following:

- 1) Deputy Superintendent for Centralized Services (DSCS);
- 2) Deputy Superintendent for Facilities Management (DSFM);
- 3) Licensed Psychology Manager (LPM)/designee;
- 4) Corrections Health Care Administrator (CHCA)/designee;
- 5) Security Office representative;
- 6) Unit Manager;
- 7) Corrections Counselor;
- 8) Major of Unit Management or Major of the Guard;
- 9) Deputy Superintendent for Internal Security (DSIS) (if applicable);
- 10) OSII Investigator (as applicable); and
- 11) Statewide PREA Coordinator/designee (when necessary).

During the past 12 months, there have been 19 out of 19 criminal and/or administrative investigations of alleged sexual abuse completed at the facility that were followed by a sexual abuse incident review within 30 days, excluding only “unfounded” incidents.

While onsite, the auditor reviewed a sample of both Criminal and Administrative Investigations of Sexual Abuse.

During the pre-audit, the auditor was provided with documentation of three separate incident reviews. The facility prepared a report of its findings from sexual incident reviews, and any recommendations for improvement, and submitted such report to the facility head and PREA Compliance Manager. The reviews were extremely detailed and highlighted both positives and recommendations for improvement. The facility acknowledges they always implement the recommendations for improvement or document its reasons for not doing so.

Through interviews with staff, it was confirmed the facility conducts incident reviews at the conclusion of a sexual abuse investigation, excluding only “unfounded” incidents. The incident reviews include upper-level management officials, and allows for input from line supervisors, investigators, and medical or mental health practitioners. The review team looks to see if there are changes that need to be made to policy or procedure. The review team; considers any possible motivations for the abuse, considers whether physical barriers may have enabled the abuse, accesses the adequacy of staffing levels during different shifts in that area, accesses whether monitoring technology should be deployed or augmented to supplement supervision by staff. At the conclusion of the facility incident review, the PREA Compliance Manager would submit a report of their findings to the PREA Coordinator. If there were any deficiencies notated, there would also be documentation outlining the steps the facility plans to take in order to correct the problem.

DC-ADM 008 PREA Procedures Manual Section 1- Data Collection and Retention states:

The Bureau of Planning, Research and Statistics shall collect accurate, uniform data for every allegation of sexual abuse at facilities under the Department’s direct control using a standardized instrument and set of definitions.

The agency aggregates the incident-based sexual abuse data annually.

The agency maintains, reviews, and collects data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews.

The agency acknowledged they would provide the Department of Justice (DOJ) with data from the previous calendar year upon request; however, they had not received such request during the past calendar year.

### **Standard 115.88 Data review for corrective action**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

DC-ADM 008 PREA Procedures Manual Section 1- Data Collection and Retention states The Bureau of Planning, Research and Statistics shall review data collected and aggregated annually pursuant to PREA Auditing Standard in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices and training by:

- 1) Identifying problem areas;
- 2) Taking corrective action on an ongoing basis; and
- 3) Preparing an annual report of its finding and corrective actions for each facility, as well as the Department as a whole.

During the pre-audit, the agency provided with the auditor with a copy of the annual report. This report included a comparison of the current year's data and corrective actions taken to reduce the incident of sexual abuse, sexual harassment, and retaliation with those from prior years, and provided an assessment of the Department's progress in addressing sexual abuse.

The Annual PREA Reports provided were approved by the Secretary and were posted on the Department website by June 30 of each year. A link to the Department website can be found below:

Specific identifying information collected for reporting purposes shall be redacted so that no individual is identifiable. In addition, the Department may redact specific material from the reports when publication would present a clear and specific danger to a facility, but must indicate the nature of the material redacted.

The auditor was provided with the 2013 and 2014 annual review. The 2014 review consists of data collected from 2012, 2013, and 2014. Annual reports attempt to identify trends and areas of concern. Annual reports are typically broad and are intended to capture statistical numbers. In addition, the review consists of future plans of corrective action to advance its effort and solid commitment to eradicate sexual abuse, sexual harassment, and retaliation for reporting such incidents. Inmate's names and specific information related to the allegations are redacted.

#### **Standard 115.89 Data storage, publication, and destruction**

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

DC-ADM 008 PREA Procedures Manual Section 1- Data Collection and Retention states the Department shall make all aggregated sexual abuse data from facilities under its direct control and contracted facilities, readily available to the public through the Department website, at least annually. The Department shall securely retain all aggregate PREA data, on the Department’s secure servers, collected for a period of no less than ten years after the date of the initial collection unless federal, state or local law requires otherwise.

Specific identifying information collected for reporting purposes shall be redacted so that no individual is identifiable. In addition, the Department may redact specific material from the reports when publication would present a clear and specific danger to a facility, but must indicate the nature of the material redacted.

Through various staff interviews, it was determined sexual abuse data is submitted to the agency monthly. If a problem or trend is noticed, a plan of action would be drafted to rectify the problem. Data is retained on secure servers that are backed up.
