Employment

1. As a reentrant of the CCC, you are expected to job search upon your arrival at the center and secured employment. There is zero tolerance in our program for individuals who choose not to work. If you are disabled or temporarily disabled; you must provide documentation from a doctor to your counselor stating that you have been deemed to be disabled. Disabled residents are expected to apply for SSI or SSD as you will need a source of income to secure a home plan.
2. Reentrants are also expected to utilize community resources to assist them in finding gainful employment; i.e., Career Link (unemployment office), temporary job services, job fairs and local job postings (newspaper). Your counselor will monitor your progress in securing employment and will address any reentrants who are un-employed or not making a sincere effort to secure employment.
3. Participation in the work field is a reflection on the CCC program and you are expected to serve your employer and perform your job duties with integrity.
4. Staff will have the discretion to determine if a particular type of work is acceptable while you are a reentrant of this facility.
5. Reentrants must secure employment through a legitimate business/employer that has a tax ID number and makes the necessary local and federal tax deductions from the wages you earn. You are not allowed to work for any business that does not claim you as an employee (No “under the table” employment). You need permission in advance from your counselor if you secure a job where you need to pay your own taxes (1099).
6. When you are going for a job interview, please inform Staff on duty. If you are going to be late returning from your interview, have a representative from the agency/company call the Center so we will know why you are late and when we can expect you to return. Remember, it is important to dress appropriately and professionally for job interviews – first impressions go a long way.
7. Any attempt to falsify your identity (use of false name, false social security number, false D.O.B., false address, etc.) in an attempt to fraudulently secure employment or any other type of service from community service providers will result in your discharge from the program. You are required to disclose your criminal history with the prospective employer.

You must provide the following information to your counselor; Company name, address, phone number, supervisor name, type of job, pay/wages, hours/days and travel time. 14. If you are going to be late from work for any reason, you must call the Center and let the Staff know why you will be late and your anticipated return time. Your work supervisor must contact the center in order to verify the reason you were late. Failure to return from work in a timely manner could result in disciplinary actions.
15. The CCC reserves the right to contact your employer and verify any work related information. In addition, you are required to inform your employer that you are in a CCC reentry program. You need to be up front with this information whether the employer inquires or not. There are times and situations that require the center to contact your employer. You should make your employer aware that Staff will make random calls to your place of employment to verify that you are at work.
16. You will need to maintain a minimum level of work hours in order to earn and keep your privileges. Full-time work is defined as a minimum of thirty-two (32) hours a week. Hours missed from sick days, vacation days, and cancellation days (i.e., low production, inclement weather, etc.) will not count toward your total work hours during the week.

You must be able to maintain your mandated treatment as well as any parole stipulations and get an ample rest.
18. Reentrants must discuss with their counselor any decision to terminate a job prior to actually quitting.

You are encouraged to resolve problems with the individual involved and discuss such problems with your counselor or another Staff member for possible resolutions

prior to submitting a Grievance. After you have taken the initiative to discuss the matter with the other individual(s) involved, the Center Director is available to discuss problems and/or complaints and will attempt to resolve issues brought to his/her attention. See your counselor for a grievance if necessary (DC-804 Part 1).

Mail

1. All mail and messages from Staff will be placed in your sign-out folder. Simply ask the Monitor on duty to give you your mail. In some cases mail received on weekends will be distributed Monday.
2. Any mail which appears suspicious, or is a package, will be placed aside and you will be asked to open the item in front of Staff for security reasons. It may also be turned over to the Center Director or Lieutenant for further investigation.
3. Reentrants may correspond with Staff by filing an inmate request to Staff and placing it in the appropriate Staff's mail box.
4. You are **not** permitted to receive or send mail to an inmate in any county, state, or federal correctional institution or agency. Approval may be requested through your Counselor, just like inside an institution. This restriction will also include correspondence with anyone currently on active probation or parole. Failure to comply will result in disciplinary action.
5. Any first-class mail and packages that arrive at the CCC after you are transferred or are released from this center will be forward to the "forwarding address" on file or returned to sender if one is not available.
6. There is a post office box on the corner immediately outside the front door of the center for any outgoing mail.
7. While you are a reentrant of this facility, you are not permitted to register for a post office box with the U.S. Postal Service. You are required to receive all of your mail at this address.
8. You are required to submit a change of address form prior to being discharged from the center. All mail received at CCC2 after your discharge will be returned to sender.

Infractions

1. Any behavior from a reentrant that violates the rules and regulations outlined in this book or in accordance with the USOR may result in an infraction report.
2. If the offense does not warrant a full hearing with Parole, you will be called for a hearing with the Center Director only.
3. Universal Set of Rules and all its attachments are posted on both floors' bulletin boards and available to all reentrants.
4. If you receive an infraction report, do not contact Staff about your hearing date, the Director will contact you.
5. The Center Director has the authority to discharge a reentrant based on the reentrant's infraction report history.

Cell Phones:

1. You may purchase your own cell phone. Cell phones must be in compliance with the cell phone agreement. You must agree and abide by rules and regulations as set by the BCC Cell

Phone Agreement. If you do not comply with the cell phone agreement you will receive a misconduct and could lose you cell phone privileges permanently.

2. **Cell phone will be used in your dorm area only.** You are not permitted to walk around the center while you are using your cell phone.
3. **Do not loan your cell phone to any other reentrant or borrow a cell phone from anyone.**
4. You are not permitted to record audio or take video's inside CCC#2.
5. Staff can confiscate your cell phone in order to search it at any time. You are required to provide your security code to staff in order for them to search the content of your cell phone.
6. You are required to abide by all of the other rules that are outlined in the cell phone policy which you will sign when you procure a cell phone.

Furloughs

1. While at the Center, SIP, STDT as well as Commuted and Juvenile Lifers may be considered for temporary home furloughs (overnight visits). You will earn the chance for furloughs the same as earning privileges.
2. While you are on furloughs a curfew will be imposed and enforced. Staff will call your furlough residence to verify you are at your furlough address after your curfew. If you are not there, disciplinary actions will be issued for violation of curfew, your furlough will be terminated and your furlough status may be revoked.
3. We expect you to stay in your furlough residence the entire night. You must return to your furlough address by 2300 hours and you are not permitted to leave your furlough residence prior to 0600 hours without authorization from your Counselor (exceptions are made to accommodate work schedules).
4. The furlough address you submit to the DOC must be the home plan you intend on using for your transitional residence and release planning (SIP, SDTP, CL and JL Furloughs).
5. Once the furlough request is submitted, the Center Director will review the request; if approved, the Center Director will request a furlough investigation to be completed by the Region 1 Community Corrections office and Parole office.
6. When we receive the final furlough approval, you will be notified by your Counselor. You will be given furlough instructions, and can begin furloughs at the discretion of you counselor.
7. If your furlough investigation results are favorable, community sensitivity issues will be evaluated by local authorities prior to furlough sign outs being granted.
8. The length of the Furloughs will be progressive in nature and will be based on the resident's program achievements and may not conflict with your individual program plan. Deficiencies in your program performance or failure to comply with the rules and regulations of furlough sign outs may result in furloughs being suspended and/or revoked all together.
9. **Furloughs are considered a privilege and can be revoked at any time.**

Count Procedure

1. Formal count procedure will be conducted 7 times in a 24 hour period the same as inside the institutions.
2. Center entrance will be secure, no one will be allowed in or out of the facility during count.

3. Standing counts will be conducted at 0630 hours and 2100 hours.
4. When count is announced reentrants must report to their bunk.
5. No use of any electronics is allowed.
6. Reentrants must remain in place when count is called until count has cleared.

Escape/Absconder

In the event you returning to the center late, it is your responsibility to contact the CCC control center immediately and inform them of any delays and the circumstances surrounding them. Any person failing to report to or return from the approved place of employment, training, education, furlough, or other authorized destination shall be deemed an absconder (parolee's)/escapee (SIP reentrants).

It is important that you report directly to and from the center in order to avoid these charges. If you fail to return to the center or leave the center without authorization, and are declared an absconder/escapee, your property will be considered abandoned and forfeited.

Prison Rape Elimination Act (PREA)

Contact of any person without his/her consent, or of a person who is unable to consent or refuse; and intentional touching, either directly or through the clothing, of the genitalia, anus, groin, breast, inner thigh, or buttocks of any person is prohibited. You should not be subject to any form of abuse (verbally, mentally or physically) by anyone while you are a reentrant; this includes Staff and other reentrants.

Please report any problems in this area to available Staff immediately in order to assure proper credibility and resolve the problem. If you do not report these incidents, they may only get worse. In some cases, you may wish to report the incident directly to the Center Director (CD). If this is the case, you may stop by the CD's office, call the CD or put in a request slip. If you do not wish to contact Staff, please refer to the PREA posters which are posted throughout the facility which have the proper reporting instructions/addresses listed on them.

Court

1. If you have reasons to go to court at any level, please notify Staff as soon as you find out this information.
2. Reentrants frequently go to court on a variety of issues and we need to know where, when and why.
3. Reentrants must provide Staff with a copy of your court papers for verification and facility records.
4. Do not wait until the day before your court date to notify Staff.
5. **If you are a parolee and your hearing is in another County, you will need a travel pass from you assigned parole agent which must be requested well in advance of the hearing date.**

Public Transportation

1. The facility is located in an area that is readily accessible to public transportation (SEPTA) which will get you any place you need to go. Maps of local bus routes are located in the Resource Room for your use. We also try to maintain a supply of schedules to help you plan your trip. Plan your bus trips in advance; do not show up at Control at the last minute prior to signing out and attempt to figure out a bus route.

2. There is taxi service as well as UBER or LIFT services available in the city which can solve an important transportation crisis. However, these are more expensive methods of travel and is recommended to use them as a last resort.

PROGRAM INFORMATION

Counseling Services

Upon your arrival at the facility, you will meet with your Counselor to develop an individual Reentry Focus Plan (RFP) for your period of residency at the CCC. The key elements of your program plan will include developing a home plan, securing employment, identifying and addressing treatment needs, and meeting your financial responsibilities. It is your responsibility to cooperate in carrying out your program plan and to achieve the necessary goals to ensure your successful reintegration into society. Your program plan will be evaluated periodically by your Counselor for progress toward the goals and objectives that have been identified. Evaluation assessments will be scheduled every two weeks. You will be fully consulted regarding any addendum, amendment, or change to your individual program plan.

As a reentrant of the CCC, your adherence to your Reentry Focus Plan is mandatory; failure to meet the expectations set forth in your program plan will result in disciplinary action up to and including unsuccessful discharge from the program. Your Counselor will provide a variety of services and perform a number of duties as required by their position. Their skills are varied and flexible, but always remember they have two common goals; the first is to protect and serve the community; the second is to help your reintegration back into the community. In their counseling sessions they will be concentrating on both, for the safety of the community, and your successful reintegration.

Reentrants may be required to participate in treatment groups while residing at the CCC. Parole reentrants must comply with all parole stipulations regarding treatment requirements. SIP/STDP reentrants must comply with all program requirements of the SIP/SDTP programs (i.e., outpatient AOD treatment, etc.).

Your counselor will encourage you to attend counseling groups and will make every effort possible to provide progress reports/updates to your counselor (for example Drug and Alcohol treatment, private therapy, family therapy, etc.). See your counselor for additional information in regards to treatment requirements/information.

Reentrants are responsible to see their counselor every week for COR Plan review and to be sure your level of privilege is correct.

Reentrants are allowed to practice their religion and seek religious counseling, etc. However, you must maintain your religious activities within the bounds of our rules and regulations as well as the safety and security of the facility. If you believe that there may be a conflict, see your Counselor. Exceptions may be made with proper approval. If you need religious counseling and are unfamiliar with the area, your Counselor will be able to provide you with referral assistance.

Community Service Projects

1. Community Service Projects are projects that reentrants perform in order to give something back to the community. Reentrants are required to complete a minimum of eight (8) hours of community service per month. The required hours of community service for your first month at the facility will be determined by the date you arrive. There are many government agencies and non-profit organizations in the community that can benefit from the work that our reentrants perform. There are several agencies posted on the bulletin board in the resource room. These agencies are pre-approved with times listed of when they need volunteer hours. If you wish to complete your community service at an agency not listed on the bulletin board you need to completed the CCC Community Service Registration Form and submit it for review and possible approval to your counselor. Please note that the organization where you plan to participate in community service must be able to provide supervision of your work the entire time you are at that agency.
2. Reentrants have until the last day of the month to complete the required hours. Reentrants are not allowed to use community service hours from the previous month toward their total for the current month. If a reentrant shows a pattern of not completing his community service hours, such reentrant will receive an infraction report and be sanctioned accordingly.
3. Community service must be completed on your general sign out hours. When you report to Control to sign out to participate in community service, you must pick up a community service verification form to take with you to the agency where you will be providing work. This form must be signed by the person at the agency who supervised you while you were performing community service and include the time you began your work and the time your work was completed. The name of the agency and the scope of the work must be included on this form as well. You must turn the completed verification form into your Counselor upon your return from your community service sign out to assure that you receive proper credit of service.
4. While completing community service hours within the community you must abide by the rules and regulations of the agency you are working for. Negative reports to the center will result in the reentrant no longer being permitted to go to that location.

Personal Emergencies

There are times when emergency situations will occur while you are at the Center. However, an emergency to you may not be an emergency to us. Do not assume that an “emergency” situation will allow you to take additional privileges automatically. Always call or have someone contact the Center to let us know what is happening in your life that is an emergency. Under certain conditions, we will approve special privileges, if we deem they are necessary. Examples would be death or serious illness of close family member. Any situation deemed an emergency will require the resident to provide proper, legitimate documentation of the emergency.

Education/Vocation

You are permitted to participate in a variety of educational or vocational programs that do not conflict with Center rules and regulations. These may be part time or full time. The variety of options is too lengthy to cover them all here. You must discuss plans/alternatives with your counselor, before doing anything definite. The important thing to know is that it is permitted, but will be done on an individual basis for each reentrant.

Medical Services

The Center does not offer medical services. A first aid kit is located in Control for your use with minor injuries, but not serious illnesses or injuries. When you are ill or injured we would encourage professional care, using the hospital emergency rooms as a last resort due to their cost. If you become seriously ill or injured, notify Staff immediately. You are responsible for medical costs while a reentrant of the Center, so check your medical insurance options immediately. If you need assistance with community medical resources, please see your Counselor.

Parole

1. Reentrants must secure a parole plan (Home Plan) prior to being released from this center. This includes a home-plan and a job or an alternate source of income such as SSI or SSD.
2. Reentrants that are going to parole out of the Commonwealth of Pennsylvania, please start your plans at the first opportunity with your counselor. Keep in mind that interstate parole supervision transfer requests can take longer to be processed and approved; thus, it is recommended that you develop a home plan in Pennsylvania if possible.
3. You will need to submit this information to your Counselor regardless of your parole plans. The Counselor will act as your link with the Parole Office and you should discuss your plans in detail with your counselor as well as your parole agent.

Facility Management

CCC2 is your temporary home and you are expected to treat the facility with care and respect. Intentional damage to any part of the building or its contents will result in disciplinary action and at times can result in the entire Center being placed on restriction. If you notice anything that is not working properly, please report it to the Staff on duty immediately, with a description of the problem. Anything can wear out or break from the heavy use received in this facility. When they occur, these things may require a quick response to keep your "home" in good repair.

You will see certain utilities such as fire alarm pull stations, smoke detectors, heat sensors, fuse boxes, electrical boxes, Staff business phones, security alarm devices, fire extinguishers, emergency lights, smoke eaters, thermostats, and security cameras throughout the building. If you attempt to alter, tamper with, vandalize, or disable any of these utilities, disciplinary action will be taken against you as well.

As a reentrant of this facility, you are responsible to report any maintenance issues to the monitor on duty immediately.

Facility Sanitation

1. Cleanliness of the Center is very important and everyone must do their part to keep the center clean, neat and organized.
2. Cleanliness applies to your personal area as well. Monitors will advise you when your area is unsanitary and you are expected to clean and organize it. Common deficiencies include unmade beds, dirty laundry lying out, excessive property, property not being stored properly, etc. If you do not maintain your personal areas properly, disciplinary action will be taken.
3. During orientation a Monitor will notify you of your cleaning assignment. You will get information on how the job is to be done, supplies, etc.; the rest is up to you!

4. Check your area to ensure it is clean before you attempt to sign out from the center. If your area is not clean or your cleaning assignment has not been completed to the monitors satisfaction you will be placed on a "Monitor Hold In" and will not be permitted to sign out of the center until the areas are cleaned. Refusing to clean your area or cleaning assignment will result in disciplinary actions being taken and you will not be permitted to sign out of the center.
5. In addition, spring and fall cleaning projects will be scheduled twice a year. There may also be special events at the center which will require a group house cleaning in which resident participation is mandatory.

Climate Control

This facility is equipped with both heating and air conditioning throughout. You are not permitted to adjust the temperature at any time. If you are uncomfortably warm or cold, please notify Staff on duty. We can only take care of problems if we know about them. Never attempt to adjust or correct climate control problems by yourself, this will only lead to more problems and disciplinary action.

Facility Emergencies

1. **Fire Drills:** We are required to conduct fire drills on a regular basis. These drills assist with emergency preparedness and may save your life. When you hear the alarm walk quickly out of the building and gather across Willow Street along the Granger Building. We will count reentrants and time your evacuation from the Center.
2. There are a number of emergency situations that can occur while a reentrant is in the Center. The first thing you are to do upon discovering an emergency is to report it to Staff. In the event of a fire, simply pull the alarm so everyone can get out of the building safely and report the location of the fire to Staff. All other emergencies will require different responses; consult Staff on duty for further instructions.
3. The Emergency Plans and Evacuation procedures for residents are posted on the bulletin boards and available for reentrants to review at all times. These procedures will be reviewed during your orientation. This is a very serious activity and anyone who does not comply with fire drills will receive severe disciplinary actions as you are endangering the life of Staff or fire fighters that may be looking for you. You never know if it is a drill or a real fire, so move! Electronics/Cell phones are not to be used during any Emergency whether it is a drill or not.

Facility Services

1. **Resource Room:** A resource room is available at the CCC to assist with reintegration and community relations. The room is located on the upper floor of the facility. The room and equipment have been provided for you to maintain and utilize as needed. Some of the items maintained within the room include laptop computers, pamphlets, books, bus schedules, tables/desks, etc. Reentrants are expected to treat the facilities with respect and care.
2. **Laundry Facilities:** Coin operated washers and dryers are available to the reentrants on the lower floor. Ironing boards are located inside the laundry room for residents use. Irons are kept in Control and you must sign them out for use and return them when completed. You must hand in your Center ID at the Control Center to sign out an iron. Irons are to be used in the laundry rooms, only. If irons are found in the dorms it could result in disciplinary actions. You are not permitted to sign out the iron for another reentrant at any time. Reentrants will not be permitted to sign out of the facility when they are doing laundry. Do not leave your laundry unattended, CCC is not responsible for any

missing items. Also, clean clothing, linen, etc. are part of your personal hygiene. **Laundry room hours are 06:00 a.m. – 10:00 p.m.**

3. **Kitchen Utensils:** Shared kitchen utensils supplied by the CCC shall be maintained in the kitchen area of the facility. Personal kitchen utensils (plates, bowls, pans, knives, forks, spoons, etc.) of reentrants shall be clean, locked, and secured in their personal kitchen locker. Do not leave dirty utensils lying around in the kitchen or they will be disposed of by Staff. Once you have cleaned your kitchen utensils, lock them in your kitchen locker. **You are only permitted to have plastic kitchen utensils in the facility; all metal kitchen utensils will be considered contraband.**
4. **Recreation Room:** The need for courtesy and cooperation is obvious in this room. The lights **must** always be on. The area closes at 2200, LIGHTS OUT at this time. Activities will also be limited if the area is mistreated by the reentrants. Vandalism to the pool table, furniture, and electronic equipment in the recreation room will not be tolerated. There are four televisions, and DVD players and gaming systems for the entire Center population. The television is equipped with cable services. Courtesy and cooperation are definitely needed in the
5. **Kitchen:** The kitchen is located on the lower floor of the building. This is where reentrants will prepare, store and eat food. **Kitchen hours are 06:00 a.m. – 10:00 p.m.** You must share the area with a lot of other people, therefore, it is very important that you follow these orders when using the kitchen:
 - Prepare your food
 - Remain in the kitchen while you are preparing your food
 - Eat your food in the kitchen only
 - Clean-up after yourself

Staff will throw away anything that is left out and not stored properly. There are too many people here to allow something to cook for long periods of time or soak dishes for hours. The idea of courtesy to others is most important. Make sure the kitchen is always a pleasant place to eat.

Reentrants are assigned three areas to store food: a kitchen locker for dry or canned food, freezer box, and a refrigerator box. These will be assigned to you during orientation. You can store food that needs to be refrigerated in the many refrigerators available. You are permitted to buy a medium sized **plastic** toolbox (approximate 17" x 8" x 7") for your refrigerated items (no metal boxes are allowed), then put the toolbox in the refrigerator. Residents are permitted one tool box for a refrigerator section and one tool box for a freezer section. Do not share tool boxes or kitchen lockers. Even if you are not using your kitchen lockers, you are required to keep them locked because this is your assigned space and you are responsible for the contents.

6. **Padlocks:** During orientation week, a reentrant is recommended to purchase three (3) combination locks for their use to secure their personal items (freezer, refrigerator, kitchen locker, or wardrobe).
7. **Basic Toiletries:** Toiletries are available to reentrants who arrive and are indigent. It provides the basic necessities until you can buy them on your own. Inform Staff if you are in need of a basic issue kit. The facility provides paper towels and toilet paper for the residents.
8. **Trash collection:** In order to maintain a clean environment for you to live, we expect residents to keep trash in its place. There is a dumpster in the parking lot of the Center for our trash. Although cleaning duties are assigned by dorms, it does not mean you cannot volunteer to take care of the problem. Do not use other buildings' or businesses' trash receptacles as this will cause problems in the local community and could result in health code citations.

9. **Vending Machines:** The vending machines are here for your convenience. If they are not functioning properly, notify Staff on duty for refunds of your money. Shaking, beating, moving, lifting the machine will result in disciplinary actions. Report any problems to the monitor on duty so we can take proper actions.
