To the Residents of the
Community Transition Centers- Erie

Welcome to the Community Transition Centers- Erie inpatient treatment program. The program’s mission is to help all affected by addictive diseases to become healthy in body, mind and spirit. This is a community treatment corrections program dedicated to helping people who are addicted to alcohol, drugs, and/or a criminal lifestyle. At Community Transition Centers- Erie the staff and residents work together toward gaining knowledge about addiction and criminal behavior, and the power to change itself destructive course. We are glad you have come.

Each resident is expected to fully participate in the program and behave in a responsible manner at all times. While in treatment you and your assigned therapist will jointly develop a treatment plan that is individually geared to your particular needs and you are expected to be involved in the implementation of your treatment plan. We believe that this program will provide you with the education, insight, skills, practice, and experience you will need to maintain a chemical and crime-free lifestyle. The opportunity to undertake this task at the present time is only available if you actively involve yourself in the program.

Weekly / Daily Treatment Expectations
Inpatient group programming is conducted Monday through Sunday. All residents are required to attend all scheduled programming, arrive on time, be prepared and participate. If a resident cannot attend the group session due to having an outside appointment or individual session it is their responsibility to contact the group facilitator prior to the group to inform them of the situation. If a resident is ill and does not feel he/she can attend the group he must receive permission from his/her therapist as well as inform the group facilitator. Missing group programming in either case could lead to extension of treatment days to make up missed programming.
Counseling

You will be assigned a therapist who will work with you individually while in the program you and a therapist will collaboratively prepare your treatment plan. This treatment plan is a document used to establish specific and measurable goals for you while you are in the Center. A periodic review of your Plan will be made to determine how well you are meeting the goals initially established. Reviews will also provide the opportunity for you and your counselor to modify the plan by adding or deleting goals as your needs and accomplishments change. The reviews will detail your progress throughout your participation in the Center program.

Information shared in the course of individual counseling is deemed confidential. General overview of progress and issues may be discussed by the treatment team; consisting of the Program Director, Assistant Directors, and the therapists from the inpatient program. At no time, however, information be held in confidence that poses a threat to facility security or is a clear violation of facility rules, Correctional regulations, or State, Federal, or local laws. You must sign a "Release of Information" form, giving permission for certain information to be shared with outside agencies.

2) Complete the top portion of the form; detailing your specific concern or request
3) Sign and turn in the form to your individual therapist

Whenever possible without risk to you, always attempt to notify your fellow resident during an emergency situation by awakening him or assisting him in exiting the building and following staff instruction. It is the purpose of this document to safeguard the lives of staff, residents and visitors of the Community Transition Centers in any emergency situation. This will be done without compromising resident accountability or supervision. The outlined procedures will be communicated annually to staff and to residents during orientation. In addition to verbal communication, the procedures will be posted on the resident bulletin board and placed in the Resident Handbook for easy and continual access. Re: Medication update

Attention Residents

As of August 22, 2018 CTC Erie will limit the allowance of Neurontin (gabapentin), Lyrica (pregabalin) and Wellbutrin (bupropion). No new prescriptions will be permitted unless reentrant has official verification of a recent prescription. This will need to be given to the onsite Dr. prior to him writing a prescription.

If a reentrant is currently on gabapentin or bupropion, change in dosage will not be permitted while at CTC Erie unless done by an already established psychiatrist.

If a reentrant is abusing his medication, (cheeking, hiding, unexplained discrepancy in counts, etc.) The medication will be discontinued for the duration of your stay and the staff Dr. will meet with reentrant during his next Dr. visit to discuss alternatives.
