

## A Day's Schedule at...

### **GEO Oxford**

The day starts with hot breakfast for all reentrants in the facility. Reentrants who are leaving the facility before breakfast is served, receive a breakfast bag and a lunch bag. Reentrants get themselves ready for the day; going to work, school/vocational program, treatment and any other required or stipulated activities.

Between 9:45 and 10:45 am, reentrants who are new intakes and others in the facility attend life skill programs. At 12:30 pm, lunch is served until 1:30 pm. Dinner is served from 5 to 6:30 pm and dinner trays are held for those who are returning to the center after 6:30 pm.

All reentrants will be scheduled to meet with their assigned case manager. This must occur once a week. Medication calls are made three times throughout the day. A facility count is conducted to account for reentrants who are in or out on approved passes. No movement is allowed during count.

Oxford is a community living facility. As a community, all reentrants are to participate in the cleaning of the facility. Chores are assigned to all reentrants.

Reentrants are required and encouraged to participate in community service work projects. This is a form of giving back something positive to the community.

The day ends with lights out at 11 pm Sunday through Thursday and midnight on Friday and Saturday.

Special activities may be scheduled for all reentrants to participate in. The information on all such activities are announced or posted to keep everyone informed.
