

A Day's Schedule at...

GEO Scranton

When a resident first comes to the facility, they are seen by security. They must fill out a medical questionnaire and give a urine screen. They are provided with linens and room assignment. Case management will meet with the resident within 24 hours to go over paperwork and go over the facility policies and orientation with them. The resident also does a treatment plan with case management. Case management will go over all the forms residents need to fill out after the reentrant is off blackout. Resident are put on a 7 day blackout period when they are not allowed to the leave the facility, unless to see parole, to obtain toiletries, and to attend treatment.

Typical Day

Residents need to be up by 8 a.m. unless they work the third shift. Reentrants are to clean their rooms and make their beds. Residents are not allowed to leave the facility unless their living area is clean.
