

A Day's Schedule at...

Keystone CCF

Reentrants schedule their week out with their case managers. This includes scheduling appointments, church visits, medical appointments, work schedules, and leisure activities. Depending on the schedule that day, reentrants are free to go to their scheduled activities.

Staff encourages all reentrants to be a part of the upkeep of the facility by asking that reentrants do their part in maintaining a clean and safe place to live.

Keystone offers breakfast, lunch and dinner for all reentrants.

Each reentrant is drug tested on a weekly basis to maintain safety for everyone but also to help maintain sobriety for those that struggle with drug abuse. Reentrants are searched every time they enter the building and their property is searched regularly. Safety for all reentrants and staff is the number one priority.
