

A Day's Schedule at...

CTC Braddock

Each resident has been granted the privilege and opportunity to become a responsible member of the community. CTC Braddock is designed to assist with reintegration back into the community, while residing in a safe, secure and structured environment.

Each resident is expected to fully participate in the program. This includes:

- Obtaining employment
- Attending any additional programming
- Obtaining a parole approved home plan
- Gradually reacquainting yourself with your family and the community.

This is expected of each reentrant, all while making positive, constructive changes in their lives.

Each resident, if not already employed, will begin on job search. Job search hours are from 10 am to 6 pm every Monday through Friday. A "job searcher" will earn pass time on the weekends from 10 am to 6 pm. After becoming employed, a resident will be given ample pass time before or after work hours to accomplish goals, visit with family and friends, shop, or have dinner out or see a movie.

The opportunity to undertake this task at the present time is only available if each reentrant follows the center rules and conducts themselves in a responsible manner. Individuals who do not comply will be removed from the program. It is our obligation to protect the community and to be here for other individuals who will need this opportunity in the future.
